ACKNOWLEDGEMENTS

I express my sincere thanks and gratitude to Dr. R. Gunasegaran, Ph. D., P.D.F. (Spain) Lecturer in Chemistry, Kanchi Mamunivar Centre for Post-graduate Studies, Pondicherry-8 for valuable guidance and supervision as well as constant encouragement throughout the period of my research work.

I am greatly indebted to Prof. A.G. Ramachandran Nair, Department of Chemistry, Cochin University of Science and Technology, Cochin, for many valuable suggestions and encouragement. I also express my thanks to Prof. J. Subramaniam, Head of the Department of Chemistry, Pondicherry University for permitting me to use the Department Library; Dr. H. Surya Prakash Rao, Professor of Chemistry, Pondicherry University, for sparing IR facilities and valuable suggestions; Dr. P. Samba Siva Rao, Professor of Chemistry, Pondicherry University, for his valuable suggestions and support.

I express my sincere thanks to Dr. M. Purushothaman, former Director, Dr. K. Uma, present Directress, Prof. V. Kumaraswamy, Head of the Department of chemistry and Dr. S. Srinivasan, Department of Chemistry, Kanchi Mamunivar Centre for Post-graduate Studies, Pondicherry, for providing me necessary laboratory facilities to undertake my research work.
I sincerely thank The Director of Education, Government of Pondicherry, for granting me permission to undergo part-time research and The Pondicherry University for registering me as part-time candidate.

I am highly thankful to Dr. T. Ganesan, Department of Botany, Kanchi Mamunivar Centre for Post-graduate Studies, Pondicherry-8 for helping me in screening of Poly phenolics against certain Phytopathogens. I also thank Dr. S. Ramanujam and Dr. K. Kadavul, Department of Botany KMCPGS, Podicherry-8, Dr. B. R. Ramesh and Mr. S. Aravazy, French Institute, Pondicherry, for helping me in plants collection and their systematic identifications. Thanks are also due to the Botanical Survey of India, Yercaud, Tamil Nadu, for helping me in plants collection at Yercaud.

This thesis might not have come to this shape without the kind help and encouragement from a number of eminent scientists who have generously provided spectral data, authentic samples and valuable comments. I must make special mention of Prof. B. Voirin, Phytochemical Laboratories, U.E.R des sciences de la Nature, Villeurbanne, France, Prof. B. Rodriguez, Institute de Quimica Organica General, Juande la Cierva, 3-28006, Madrid, Spain and Dr. K.P. Madhusudanan, Deputy Director, Medicinal Chemistry Division, C.D.R.I., Lucknow. I acknowledge the services rendered by RSIC, IIT, SPIC Science Foundation, Chennai, and SIF, IISc, Bangalore, for providing spectral data.
I derive great pleasure in thanking the research scholars and colleagues of my department friends and members of my family who have always encouraged and inspired me in my work. Finally I whole-heartedly thank my Guruji. Vaidya Ratnam. Dr. V. Balaramaiah, who not only inculcated in me the knowledge of medicinal properties of plants, their purification and uses in curing diseases of mankind, but also the knowledge of Astrology, Astronomy, Vasiyoga and Philosophy, which instigated me to select this topic as my research work.

K. SUBRAMANI
