

LIST OF TABLES

No.	Chart No.	Title	Page No.
1	2.1	Trade union movement in India	55
2	3.1	Cement production in important countries	80
3	3.2	Industrial production growth rates	81
4	3.3	Effect of partition on cement production	86
5	3.4	Cement technology	92
6	3.5	Process technologies in the large scale	93
7	3.6	Ownership pattern	93
8	3.7	Relative share of various types of cement	94
9	3.8	Cement plants in India	96
10	3.9	Details of plants in western region	97
11	3.10	State wise limestone reserves	98
12	3.11	Average per capita consumption of cement	99
13	3.12	Mini cement technology and capacity	108
14	3.13	Cement production by mini plants	108
15	3.14	Technology and manpower requirements	110
16	3.15	Cement dispatch	116
17	3.16	Cement dispatch of selected units	116
18	3.17	Cement production and dispatch	117
19	4.1	Cement units selected for research study	129
20	4.2	Installed capacity and present utilization	131
21	4.3	Leadership style in cement units	132
22	4.4	Duration of human resource planning in cement units	133

23	4.5	Human resources in large plant	135
24	4.6	Employees under study in mini plants	136
25	4.7	Recruitment practices in large plants	138
26	4.8	Year wise recruitment practices in mini plants	139
27	4.9	Promotion policies in cement units	141
28	4.10	Promotion practices in large plants	143
29	4.11	Promotion practices in mini plants	144
30	4.12	Training methods in the company	146
31	4.13	Training practices in large plants	147
32	4.14	Training practices in mini plants	148
33	4.15	Prevailing wage structures in cement units	150
34	4.16	Duration of performance evaluation practices	153
35	4.17	Methods for performance evaluation	153
36	4.18	Employee absenteeism in cement units	155
37	4.19	Causes of absenteeism	155
38	4.20	Employees strikes in large plants	157
39	4.21	Employee participation in management	158
40	4.22	Forms of workers' participation	159
41	4.23	Management ideology for cordial industrial relations	160
42	4.24	Managements' views on industrial relations	162
43	4.25	Industrial relations practices responded by management	164
44	4.26	Trade unions and membership	166
45	4.27	Membership in cement manufacturers' association	168

46	4.28	Industrial relations practices responded by employees	170
47	4.29	Industrial relations rating by management	174
48	4.30	Industrial relation rating by employees	175
49	4.31	Chi-Square	176
50	4.32	Computation of Chi-Square	176
51	4.33	Factors responsible for employee grievances	177
52	4.34	Present position of indiscipline	179
53	4.35	Causes of indiscipline	180
54	4.36	Factors affecting industrial unrest	181
55	4.37	Factors affecting industrial fatigue	183
56	4.38	Collective bargaining power	184
57	4.39	State of human resource policies in cement units	186
58	4.40	Factors affecting industrial relations	187
59	4.41	Employees' views on industrial relations	189
60	4.42	Role of trade unions in industrial relations	192
61	4.43	Negotiation strategies of unions	194
62	4.44	Financial sources of trade union	195
63	4.45	Main activities of trade unions	196
64	4.46	Employee welfare facilities	199
65	4.47	Industrial relations rating by employees	206
66	4.48	Satisfaction quotient	207
67	4.49	Benefits given beyond statutory requirements	209
68	4.50	Burning issues	210
69	4.51	Factors influencing negotiation process	213
70	4.52	Machinery used to resolved problems	214

71	5.1	Cement production and dispatch	220
72	5.2	Comparison of views of both management and employees regarding prevailing industrial relations.	231
73	5.3	Factors responsible for employee grievance.	232
74	5.4	Benefits given beyond statutory requirements	238
