ACKNOWLEDGEMENT

I acknowledge my indebtedness to my guide Dr. J.Z. Patel, Reader, Department of Education, Sardar Patel University, Vallabh Vidyanagar, for his invaluable advice, patience and constructive guidance and constant encouragement throughout this study. It is impossible to express my sense of gratitude in words to this eminent educator.

I am very much thankful to the late Principal Dr. B.V. Patel as well as all the staff members of M.B. Patel College of Education, Vallabh Vidyanagar, for their suggestions, healthy co-operation and for their homely attitude towards me during the research period in that college.

I express my thanks to the principals, staff members and students of the institutions, incorporated in this study, for their kind co-operation in administering my creative ability test.

I will be failing in my duties if I do not make a mention of the willing co-operation of the management, staff members and children of Gyan Jyot Uttar Munadi High School, Ahima of Kheda District.
The investigator respectfully pays great homage to his late parents who spent their entire life educating children by spending their time and money, who were the chief source of inspiration behind the present study.

This work is expensive, time consuming and requiring cooperation from several persons, I am thankful to known and unknown persons who have helped me directly or indirectly in research work.

I cannot forget all my family members who have prayed for me and provided lots of facilities for this lengthy work.

I heartily thank Dr. D.S. Surve and Mr. H.R. Prajapati for correction work and J.C. Christian for decent typing of the thesis.

Vallabhbh Vidyanagar
