# Contents

1 Introduction 1

2 On Abstract Nonlinear Functional Integro-Differential Equations With Nonlocal Condition 11
   2.1 Introduction ........................................... 12
   2.2 Preliminaries and Statements of Main Results ........... 14
   2.3 Proofs of Theorems .................................... 21
   2.4 Existence Result of Second Order Equations ............ 29
   2.5 Application ........................................... 33

3 On Nonlocal Semilinear Functional Integro-Differential Equations In Banach Spaces 36
   3.1 Introduction ........................................... 37
   3.2 Preliminaries and Hypotheses .......................... 39
   3.3 First Order Nonlocal Integro-Differential System ....... 42
   3.4 Second Order Nonlocal Integro-Differential System .... 48
   3.5 Nearness and Convergence of Solutions ................ 53
3.6 Applications ...................................................... 57
   3.6.1 First Order Nonlocal Integro-Differential System .... 57
   3.6.2 Second Order Nonlocal Integro-Differential System ... 59

4 On Impulsive Nonlocal Abstract Integro-Differential Equations With Finite Delay ............................................. 61
   4.1 Introduction .................................................... 62
   4.2 Preliminaries and Hypotheses ................................. 64
   4.3 First Order Impulsive Integro-Differential System ....... 69
   4.4 Second Order Impulsive Integro-Differential System .... 81
   4.5 Applications ................................................... 82

5 On Neutral Impulsive Functional Integro-Differential Equations With Nonlocal Condition In Banach Spaces ..................... 87
   5.1 Introduction .................................................... 88
   5.2 Preliminaries and Hypotheses ................................. 91
   5.3 Existence and Uniqueness of Mild Solution ................. 95
   5.4 Continuous Dependence of a Mild Solution ................. 108

Bibliography .................................................................. 112
