ACKNOWLEDGEMENT

Ever since the earth has taken birth and men emerged on it, an unending quest to unravel the truth the research is continued. It has widened human vision, opened newer avenues and lightened the dark obscure facets of mysterious universe. Today, at the acme of my dissertation, with heartiness I gratefully remember my parents, teachers, friends, relatives and well wishers; as one flower make no garland. This presentation would not have taken shape without their whole hearted encouragement and live involvement.

First of all, I am thankful to Almighty for always being with me and blessing me with good family, friends, teachers and well wishers.

A successful outcome in any research endeavor attributes itself to the selfless guidance of the mentor. First and foremost, I express my deep sense of gratitude and indebtedness to my mentor and esteemed guide Prof. (Dr.) A. K. Saluja, M. Pharm. Ph. D., F. I. C. (Principal J. C.
