October 15, 1978

To
The Educational Counsellor
Rayal Thai Embassy
New Delhi

Dear sir,

It gives me very much pleasure in approaching you with regard to Dr. Vichitr Yodsuwan who happen to be studying for Ph.D. in Education under my guidance at the Sardar Patel University, Vallabhi Vidyanagar, Gujarat state, India.

Dr. Vichitr has taken up the topic of "A Study of Factors Affecting In-service Education Programme of recently Educated Teachers in Thailand." This requires the collection of data from various personalitites and educational institutions. He has to get response through the questionnaire, opinionnaire and will also be required to interview personally a large number of respondents together with administering of certain psychological and sociological tests. This would require about a period of 6 months and he would be needed to be in Thailand for the same purpose for that duration.

I therefore, request you to be kind enough to permit him to leave India and stay in Thailand to collect the data for 6 months or a little more to facilitate his study and collection of data?

As a tentative programme Dr. Vichitr is likely to return to India sometime in July, 1979.

I thank you very much in anticipation of your sanction.

With best regards,

Your Faithfully

Sig.

J. M. Bhatt
