ACKNOWLEDGEMENTS

I am sincerely grateful to Professor J. J. Shah, Head, Department of Biosciences, Sardar Patel University, Vallabhbhi Vidyanagar, for his guidance.

My thanks are due to Retd. Principal, Dr C.M. Desai, P.T.S. College of Science, Surat and Ma H.K. Patel, Head, Department of Botany, P.T.S. College of Science, Surat for their inspiration and interest in my work.

I wish to thank Drs J. D. Patel and I.L. Kothari for their everwilling help and suggestions during this study.

I extend my thanks to Drs M.H. Parabia, H.O. Shah, Salma Baqui and Dina Parabia for their help.

My sincere thanks are also due to my friends M/S M.H. Trivedi, G.M. Nair, K.S. Rao, P.M. Jacob, K. Venkaiah, S.V. Subramanyam, S.L. Karnik and R.R. Chavan for their whole hearted co-operation and help.

Thanks are also due to my colleagues of the Department of Botany and Zoology, P.T.S. College of Science, Surat for their co-operation and interest in my work.

I thank the Sardar Patel University for awarding me the UGC fellowship.

I acknowledge my sincere thank to Mr N. J. Patel for his help in making illustrations, and to Mr A.R. Patel for typing the thesis.

I also remember my father who gave me constant encouragement for the fruiting of this endeavour, but left me before I could complete it.

(Y.J. Thanki)
