INSTRUCTIONS

This is an inventory to know what you are interested in. THIS IS NOT A TEST. The purpose of this inventory is to help you find out what kinds of occupations would be most interesting to you. There are no 'right' answers or 'wrong' answers for the given statements. The right answer for you is that which is appropriate for you or which shows what you are interested in. A list of many activities is given in this booklet. Read each activity. Think. Then mark your answer carefully and honestly in the separate answer sheet as shown below, its results can be very helpful to you and your counsellors in planning your career.

MAKE NO MARKS IN THIS BOOKLET. You will mark your answers as shown below on the separate answer sheet given along with this booklet.

Two activities are given in each question against the letters 'A' and 'B'. You are to select one of each pair. If you are to select only one out of the two activities, decide after proper thinking which would you prefer. Do not consider how much you would earn - how much training would be necessary - or what people think of the activity, when you select one activity out of the two. Assume that you must select one activity or the other even though, in some cases, you may not especially like either one or you may like both. The following is an illustration:
1. A. To see art exhibition
   B. To hear music

2. A. To collect coins
   B. To catch butterflies

Decide which of the activities you prefer in the above mentioned questions, and mark your answers as shown below:

Against each question, two circles under columns 'A' and 'B' are given in the separate answer sheet. If you select for example, the activity A, write X in the circle under column 'A', and if you select the activity - B, mark X in the circle under column 'B'.

DO NOT PREFER ANY ACTIVITY ONLY BECAUSE IT IS NEW. Show your answer by marking X in the appropriate circle according to your interest. Remember that you answer all the questions by choosing one activity from each pair. Be sure that your answers will be kept confidential. There is no time limit for this inventory, but don't take more time than required. Work as fast as you can. Don't discuss about the activities among yourselves, because it carries no meaning if the answer is not yours.

REMEMBER THAT YOU MAKE NO MARKS IN THIS BOOKLET. Mark your answers in a separate answer sheet. First fill in the information called for on the answer sheet and then start.
