CONTENTS

ALPHABETICAL LIST OF FAMILIES DEALT IN THE FLORA ........................................ i
LIST OF FIGURES ................................................................................... iv
LIST OF PLATES ..................................................................................... vi

CHAPTERS :

I. INTRODUCTION .............................................................................. viii
   1. Importance of plant wealth viii
   2. Importance of Floras ix

II. PAST AND PRESENT WORK ................................................. xi
   1. Historical retrospect xi
   2. Reasons to undertake the present endeavour xi.a
   3. Present work xi.b
   4. Plan of the flora xi.d
   5. Abbreviations xi.e

III. GEOGRAPHY, TOPOGRAPHY, GEOLOGY AND CLIMATE. xii
   1. Geography of the area xii
   2. Topography xiv
   3. Geology and soil xv
   4. Climate xvii
IV. VEGETATION ............................................. xxii
   1. Moist tropical forests xxii
   2. Dry tropical forests xxvi
   3. Western sub-tropical hill forests xxix
   4. Riparian, agrarian and aquatic vegetation xxx
   5. Biotic influences xxxii

V. FLORISTIC ANALYSIS ................................. xxxiv
   1. Synoptic analysis and comparison of the flora xxxiv
   2. Biological spectrum xli

VI. OTHER INTERESTING FINDINGS ....................... xliii
   1. New reports xliii
   2. Economically important plants xlv

VII. SUMMARY AND CONCLUSIONS ........................... xlix

Plates I-IV

VIII. SYSTEMATIC TREATMENT ................................ 1
   1. Artificial key to the families 1
   2. Descriptions of taxa 17

IX. SELECTED BIBLIOGRAPHY ............................... 704

Plates V-XIV

INDEX TO FAMILIES, GENERA AND SPECIES ................. 712
