ACKNOWLEDGEMENTS

The task of acknowledging the debts which always accompany the preparation of a thesis is pleasant.

I acknowledge my deep sense of gratitude to my research Guides Prof. H.C. Dube and Prof. R.J. Patel, who have been the main source of inspiration from the very beginning. Their comments, suggestions and help have sustained me throughout. Not the least important is the cheer and encouragement they gave me during the course of this work, and made me work harder and to better effect. A debt I can never forget.

I owe a deep debt of gratitude to Prof. J.A. Inamdar, Head, Department of Biosciences, Sardar Patel University, Vallabhbhi Vidyanagar for generously extending laboratory facilities, advice and encouragement during the course of this work.

I would be failing in my duty, if I do not express my sincere thanks to my research colleagues Dr. H.C. Patel, Mr. K.C. Patel, Dr. S.M. Trivedi, Mr. R.M. Ray and Dr. K.M. Patel for their unflinching help and kind cooperation at every stage of this work. My thanks are
due to all those colleagues and friends with whom I had the pleasure of valuable discussion.

I must thank D.S.T. and Sardar Patel University, whose financial support afforded me the opportunity to undertake and complete this research work.

My sincere thanks are also due to Prof. A.K. Vidaver, Head, Department of Plant Pathology, University of Nebraska, Lincoln, U.S.A., for her valuable suggestions.

Mr. U.H. Vohra's expedition and accuracy in typing is appreciatively acknowledged.

VALLABH VIDYANAGAR
