

PUBLICATONS

1. S. G. PATEL, S. H. CHAKI and AJAY AGARWAL
Selection of Appropriate Electrolyte for a PEC Solar Cell Fabricated with CuInS_2 Single crystals.
Bulletin of Electrochemistry, 9(1) January (1993) 32.
2. S. G. PATEL, S. H. CHAKI and AJAY AGARWAL
Growth and Electrical Properties of Zirconium Trisulphide Single Crystals.
Physica Status Solidi (a), 140 (1993) 207.
3. AJAY AGARWAL and S. G. PATEL
Growth of Tin Monoselenide Single Crystals by a Direct Vapour Transport Technique.
PRAJÑA (JOURNAL OF SARDAR PATEL UNIVERSITY), 3 (1993) 77.
4. AJAY AGARWAL, D. LAKSHMINARAYANA, SUNIL H. CHAKI and S. G. PATEL
Semiconducting Behaviour and Pressure Dependence of Electrical Resistivity in Tin Monoselenide Single crystals grown by a Modified Direct Vapour Transport Technique.
Journal of Materials Science : Materials in Electronics, In Press (1994)
5. AJAY AGARWAL, P. D. PATEL and D. LAKSHMINARAYANA
Single Crystal Growth of Layered Tin Monoselenide Semiconductor using a Direct Vapour Transport Technique.
J. Crystal Growth, In Press (1994).
6. M. K. AGARWAL, S. H. CHAKI, A. AGARWAL, S. M. PATTALWAR, B. T. KANSARA and P. G. RODRIGUES
Differential Temperature Controller for the Measurement of Thermoelectric Power on Small Samples.
J. Instrument. Society of India, In Press (1994).
7. AJAY AGARWAL, D. LAKSHMINARAYANA, S. H. CHAKI AND S. G. PATEL
Pressure Dependence of Electrical Resistivity in SnSe single crystals.
Proceedings of the DAE Solid State Physics Symposium, (BARC, December, 27-31, 1993) 36-C, 319.
[Also Published in News Letters of High Pressure Research Activities in India].

8. S. K. ARORA and AJAY AGARWAL
Growth of n-type Tungsten Diselenide for PEC work.
XXIII National Seminar on Crystallography,
(Deptt. of Physics, MRE College, Jaipur) March 23-25,
1992, E-50.
9. AJAY AGARWAL, D. LAKSHMINARAYANA and DILIP H. PATEL
c-axis Electrical Resistivity in Tin Monoselenide
Single Crystals.
Materials Research Society of India, (Hyderabad,
February 7-9, 1994) E-8.
