ACKNOWLEDGEMENT

A thesis preparation is a massive and laborious work requiring dedicated efforts and focus. Distractions often take away the researcher and only continuous motivation and constant encouragement can help to get back the direction. I would like to express my deepest gratitude to my guide Dr. H.J. Dalwadi, who replenished the energy and zeal when I really got fatigued. His solid but sedate support was invaluable. He took a lot of interest in completing it. His diligence, meticulousness and attitude helped me to streamline my efforts so that it could attain its fruition. I deeply remember his support.

I owe deep gratitude to the Chairman, Charutar Vidya Mandal, Dr. C.L.Patel for his blessings and inspiring advices for young teachers to undertake researches. I thank him sincerely.

I also feel indebted to the Principal, Dr. Anurag Varma, G.H.Patel College of Engineering for his support and valuable suggestions. His continuous encouragement has helped me.

My duty never ends without remembering my parents who nourished and nurtured my inquisitiveness and zeal.

Being a full time employee, teaching and other administrative activities kept me busy most of the time. Carrying out of a study of this magnitude was possible only if my family supports me. I remember the affectionate attitude of my daughter Sherin who missed my personal guidance and help in her studies for a long duration, still never complained. My younger son Shine was never happy with my tight work schedule being too small to understand the gravity of it. I nevertheless feel a bit of pain.

Finally, to my husband; to me a perpetual stream of love and care….and more
