Acknowledgement

Though only my name appears on the cover of this thesis, many people have contributed to its production. I owe my gratitude to all those people who have made this thesis possible and because of whom my research experience has been one that I will cherish forever.

My deepest gratitude is to my Supervisor Prof. (Mrs.) Sahera Nasreen. I have been amazingly fortunate to have an advisor who gave me the freedom to explore on my own and at the same time the guidance to recover when my steps faltered. Her patient and support helped me overcome many crisis situations and finish this thesis. Her critical suggestions and constant encouragement has always improved the quality of my research work, I am indebted to her more than she knows. I attribute the level of my doctorate degree to her encouragement and effort and without her this thesis, too, would not have been completed.

My sincere thanks are due to Dr. S. P. Nanir (Former Director), Govt. Institute of Science, Aurangabad for his critical suggestions and encouragement.

It is my pleasure to acknowledge Dr. R. R. Deshpande, Director, Govt. Institute of Science, Aurangabad for his catalytic influence, who afforded me facilities to carry out my research work.

My sincere and heartfelt thanks are due to Dr. Abhay Salve, Associate Professor and Assistant professor’s of Govt. Institute of Science, for their motivation and moral support.

It would be my blunder if I forget to express my thanks to Non-Teaching staff of Dept of Botany, Govt. Institute of Science, Aurangabad for assisting me in many different ways.

I owe deep thanks to all my colleagues Dr. Temburne, Dr. N. Bhosle, Dr. Shaista Shah, Yahiya Pathan, and my junior colleagues K, Mangesh, V. wakde in
the Department of Botany, Govt. Institute of Science, Aurangabad and Dr. Sharad Gaikwad (Geology Dept.), for their regular expression of best wishes and inquiries into the progress of my research work.

I am thankful to UGC for providing Maulana Azad National Fellowship.

I am grateful to my bosom friends for providing constant encouragement stimulation and co-operations during my research work. I am especially grateful to Rashiqua Siddique, Heena Sayed, Sanober Saberi, Pooja Thakur, Shabnam Surendran, Karuna Wagh, Sayed Masrat. They help me in all ways for completion of this assignment.

I wish to thank my cousin brothers for their kind and caring attitude towards me Mohd. Awais, Mohd. Azher, Shaikh Minhaj, Shaikh Nazem and Sonu.

Special thanks to Mohd. Muqtadir Ansari, my dearest, without whom this effort would have been worth nothing. His love, support and constant patience have taught me so much about sacrifice, discipline and compromise.

Lastly, and most importantly, I wish to thank my parents, Mr. Shaikh Khadeer and Mrs. Shaikh Shaheda Begum and my sister Shaikh Saniya T. for their belief in me. My hard-working parents have sacrificed their lives for my sister and myself and provided unconditional love and care. I love them so much, and I would not have made it this far without them. My sister has been my best friend all my life and I love her dearly and thank her for all her advice and support. I know I always have my family to count on when times are rough. Without their support and motivation I could not reach up to this achievement. I dedicate this work to them, to honour their love, patience and support during these years.
