

ACKNOWLEDGEMENTS

I have great pleasure in expressing my deep sense of indebtedness and heartfelt gratitude to Professor M.K. Agarwal, M.Sc., Ph.D., Head, Department of Physics of this university, for his expert and valuable guidance and encouragement given to me during the course of this work.

I am highly grateful to Professor A.R. Patel and Professor M.S. Joshi for their kind encouragement and their valuable suggestions. I am thankful to Professor P.D. Patel and Professor R. Shrivastava for going through the final manuscript and for helpful suggestions and discussions during the present research work. I record my wholehearted thanks to Dr. G. K. Shivakumar and Dr. A.R. Jani for their helpful suggestions and discussions. The author wishes to acknowledge the help received from Professor S.M. Patel, Head, University Science and Instrumentation Centre (USIC), and his staff for the technical assistance. The help received from Mr. S.R. Patel and Mr. U.R. Rao in the construction of the furnace and glass blowing work respectively is also acknowledged.

My sincere thanks are recorded to Dr. P.K. Garg, Dr. D. Laxminarayana, Dr. N. G. Patel for their valuable suggestions and discussions.

I am very much grateful to all my research colleagues who made valuable contribution to the present investigation. In particular the author wishes to acknowledge the assistance of M/s. R.M. Joshi, M. N. Vashi, K. C. Patel, V. M. Pathak, N. M. Eatra, Arun Hanchinal, M. S. V. Ramana, V. G. Kapale and Mohan Prabhu. The co-operation of the staff of the office is also thankfully appreciated. Thanks are also due to Mr. Prakash Salvi for neat and tidy typing of the final manuscript and Mr. M. M. Dave who helped me correcting the typescript.

akc:2

I am also thankful to the Department of Non-Conventional Energy Sources, New Delhi for the financial assistance during the present work.

Lastly, I wish to express my gratitude to my wife, Rekha, who is a source of encouragement. I like to remember my parents and other members of my family whose goodwill and inspiration far exceeds what the words of appreciation can express.
