

## CONTENTS

Preface :pr.i:

Acknowledgements

Chapter Pages

### PART I

- |    |                                    |    |
|----|------------------------------------|----|
| 1. | Existing information               | 1  |
| 2. | Growth and dissolution of crystals | 27 |
| 3. | Experimental techniques            | 54 |

### PART II

- |    |  |     |
|----|--|-----|
| 4. | Flux growth of calcium molybdate single crystals | 69  |
| 5. | Characterization of the grown crystals           | 96  |
| 6. | Kinetics of calcium molybdate crystallization    | 111 |

### PART III

- |    |   |     |
|----|---|-----|
| 7. | Microhardness anisotropy of calcium molybdate single crystals | 128 |
|----|---|-----|

8.	Dielectric behaviour	146
9.	Electrical conductivity measurements	161
10.	Conclusions and scope for future work	177
	List of publications	184
