

ACKNOWLEDGEMENTS

I am highly indebted to my dearest guide, Dr. A. S. Reddy for his invaluable guidance, painstaking efforts and moral boost constantly provided during the tenure of my research.

My sincere thanks are due to Prof. Datta Madamwar, Head of the Biosciences Department and Prof. I. L. Kothari, the former Head for providing me the opportunity and working facilities to carryout the work.

My gratitude lies with Dr. J. S. S. Mohan for his non-oblivion guidance.

No words can express my deep heartiest wishes to Dr. V. Rama Rao, Shri. Jayendra Chauhan, Mr. Ritesh Vaidya and other colleagues in the laboratory.

I take this opportunity to record my heartfelt thanks to Dr. Nataraj, teaching faculty of Biology Department of Gujarat College, Dr. B. K. Jain, Mrs. S. M. Panchal Science College, Talod and Mr. K. C. Patel for their timely help and enthusiastic support.

My earnest appreciation to Dr. H. R. Bhatt for assisting me in translation of ethnobotanical information collected in tribal-Gujarati dialects into English with appropriate technical terms. Mr. D. M. Prajapati provided guidance in my various field trips. I sincerely thank him.

I highly record my gratitude to late Dr. S. B. Narula, former Head of Biology Department, M. N. College, Visnagar who inspired me to take up this task to my soul and hands.

I would be selfish if I do not pay my veneration to Rajendrasinh Solanki for his untiring help in entering and editing the computer data.

I owe a great deal to the officers of the Forest Department of Gujarat and informators for providing me valuable information, related to ethnobotanical studies.

The present endeavor would not have been completed without the inspiration, encouragement and co-operation given to me from time to time by my beloved family.

At last I bow to the almighty for the blessings showered up on me, in completion of this work.

J. Patel
