ACKNOWLEDGEMENT

I have great pleasure in expressing my deep sense of respect, sincere gratitude and whole hearted thanks to Dr. K.A. Raveesha, Professor and Research Supervisor, Department of Studies in Botany, Manasagangotri, UOM, Mysore, who provided generously the professional guidance for this study. But for his patience, critical suggestions, sustained encouragement, willingness to venture along new pathways and long hours of discussions, the work should have remained unaccomplished. It was a great pleasure and privilege for me to be his student. He deserves rich tribute and regards indeed.

It would be most appropriate on my part to acknowledge AICRP-Potato, ICAR, Shimla for having provided different genotypes of potato to conduct the experimental trials. Especially I thank then Project Coordinator, Dr. P. S. Naik for the permission to use the genetic material for the study and arrangements for the supply.

I wish to express my profound sense of gratitude and respect to Dr. T. Vasanth Kumar, Managing Director, M/s. Green Life Science Technologies, Mysore, for providing the PHYTON-T, a seaweed extract to conduct the study, for untiring guidance and constructive criticism during the course of my research work and preparation of the thesis. My Sincere thanks to Dr.Sriramulu, Professor of Agriculture Microbiology, Bio-fertilizer Scheme, Department of Agricultural Microbiology, GKVK, Bangalore – 560 065 for having provided the culture of the Phosphate Solubilising Bacteria (Pseudomonas striata) for the study and consistant guidance provided during throughout study.

I am extremely indebted to Prof. G. R. Janardhana, Chairman of the department, Prof. M. S. Sudarshana, Prof. Shobha Jagannath, Prof. S. Leelavathi and all other faculty members of Department of Studies in Botany, University of Mysore for their guidance, encouragement and timely help.

I am deeply indebted to Dr.Sreeramu, Professor of Horticulture and Dr. R. L. Ravikumar, Professor of Biotechnology, GKVK, Bangalore who extended valuable suggestions, close counsel, ever helping nature, moral support, encouragement and for critical perusal of manuscript with patience during the preparation of this thesis.

In accomplishment of this task, Dr.Thimmegowda, M. N., Associate Professor of Agronomy, GKVK, Bangalore, Dr.Jayaramaiah. R. Assistant Professor of Agronomy, Dr.Venkatesh, Professor of Plant Pathology, Agriculture College, Hassan and Dr.Basavaraj,
B.S. Training Coordinator, KVK, Hassan are greatly acknowledged for their valuable ideas, constructive suggestions and generous assistance which greatly influenced the formulation of this thesis.

The thesis would never have been what it is but for the constant help rendered by my colleagues/friends Mr. Muniswamappa, Associate Professor of Statistics, Dr. Gaddi, Assistant Professor of Agriculture Economics, Dr. Kadalli, Assistant Professor of Soil Science and Dr. M.S. Nagaraj, Assistant Professor of Plant Pathology, Agriculture College, Hassan, Dr. Ramesh, Associate Professor of Plant breeding and Genetics, GVK, Bangalore, Mr. Imran Khan, Research Associate, ZRS, Shimoga and Dr. Kavitha, Assistant Professor of Plant Pathology, UAS - Raichur who extended the help in different manner whenever I needed for which I owe them every word of this thesis.

I wish to express my special thanks to my wife Mrs. Padma H and my son S. Shashank for their consistent encouragement and sacrificing their valuable time to complete the task.

I feel inadequacy of my diction to express my deep sense of gratitude and heartfelt respect to my mother, Smt. Ganganarasamma, Mother-in-law, Smt. Jayalakshmi and my father-in-law, Sri. R. Honnaiah for their proudness, moral encouragement, constant support, appreciation, enormous trust, care and concern. I am extremely grateful to my beloved sister, Smt. Manjamma, brother, Mr. Raghupathi and brother-in-law Mr. Venkatesh for their encouragement and inspiration to achieve the task.

This thesis has been fulfillment of the hopes of my parents and relatives. I thank them for their love, encouragement and moral support. My sincere thanks are also to my Guides family members for their patience and allowing me to spend most of the time to complete this thesis.

Any omission in this brief acknowledgement does not mean lack of gratitude. I wish to express my sincere thanks to authorities of DOS in Botany and UOM, Mysore for helping me to carry out this investigation.

Above all, I must thank for the blessings of the Almighty the eternal spirit.

(SIDDAGANGAIAH)
