Acknowledgement

This is the moment of pleasure to acknowledge those people without whom this work would not been completed successfully.

It is matter of pride to express my deep sense of gratitude to Prof. Ramesh. L. Londonkar, Research supervisor, Department of Biotechnology, Gulbarga University, Kalaburagi for his continuous support and encouragement during this work. I owe him lots of gratitude for showing way in research. He could not even realize how much I have learned from his guidance.

I am thankful to Prof. G.R. Naik, Chairman, Department of Biotechnology and Dean, Faculty of Science and Technology, Gulbarga University, Kalaburagi for his support and valuable suggestions throughout the period of this investigation. I also thank Prof. Chandrakanth Kelmani and Dr. M. B. Sulochana, Department of Biotechnology, Gulbarga University, Kalaburagi for their support during this work.

I convey my thanks to my lab mates Mr. Umesh, Mr. Sanjeevkumar and also all my research mates of Department of Biotechnology and other Life science Departments of Gulbarga University, Kalaburagi for their kind help and co-operation. I explicit my sincere thanks to all non – teaching staff for their cooperation and helping hand throughout my research.

I acknowledge SAIF (Sophisticated Analytical Instrumentation Facility Centre) Punjab University, Chandigarh for providing instrumentation facility for spectral analysis.
The work in this thesis was greatly supported by my family. I would like to share this moment of happiness with my beloved father and mother. I am grateful to my brother for his in time support during this venture.

My heartfelt acknowledgements to my wife Jayashree for her unconditional support, motivation and encouragement throughout this work.

Kirankumar S.
