List of Tables:

Table No. 1 Total number of host species surveyed from Industrial and non-industrial area during year 2007-10

Table No. 2 Host Species collected in different seasons for nematode parasites during 2007-10 from both the areas

Table No. 3 Sex ratio of hosts in different localities for year 2008-10

Table No. 4 Nematode parasites recovered from hosts in study area during 2008-2010

Table No. 5 Distribution of nematodes in different organs

Table No. 6 Seasonal variation in rate of infection of host by different nematodes (Irrespective of localities)

Table No. 7 Species diversity of nematode parasites in collected hosts during 2007-10 in study area.

Table No. 8 Seasonal fluctuation of infection intensities by different nematode parasites during year 2007-2010.

Table No. 9 Relationship between weight of different hosts of different localities and total number of parasites per individual.

Table No. 10 Calculation of the effect of sex, locality, seasons and years on the infectivity of Duttapharynus melanostictus

Table No. 10a Total number of parasites per individual corresponding to sex and season from host D. melanostictus

Table No. 10b Effect of seasons on total number of parasites in D. melanostictus

Table No.: 11 Calculation of the effect of sex, locality, seasons and years on the infectivity of H. tigerinus
Table No. 11a Total number of parasites per individual corresponding to sex and season from host *H. tigerinus*

Table No. 11b Effect of seasons on total number of parasites in *H. tigerinus*

Table No.:12 Calculation of the effect of sex, locality, seasons and years on the infectivity of *E. hexadactylus*

Table No. 12a Total number of parasites per individual corresponding to sex and season from host *E. hexadactylus*

Table No. 12b Effect of seasons on total number of parasites in *E. hexadactylus*

Table No.: 13 Calculation of the effect of sex, locality, seasons and years on the infectivity of *Uperodon systoma*

Table No. 13a Total number of parasites per individual corresponding to sex and season from host *Uperodon systoma*

Table No. 13b Effect of seasons on total number of parasites in *Uperodon systoma*
