ACKNOWLEDGEMENTS

This research study is the result of successful entrepreneurs who have tempted me to do something on entrepreneurship development. Large number of industrialists and others have contributed their time and knowledge. It would be very difficult to place all of them individually on this page by me. I am really grateful to each one of them.

In this endeavour, the researcher conveys her profound and deep sense of gratitude towards respectable guide, Professor (Dr) V.G.Patel. His unstinted love, sympathetic treatment and transparent sincerity are worthy of appreciation

My heartfelt thanks goes to Professor (Dr.) D.M.Shah for providing me constant encouragement in completion of the research study.

I express my sincere thanks to Dr. P.H.Vyas, and other colleagues of the P.G.Department of Business Studies who have helped me to sustain interest and enthusiasm in the completion of this research study.
I am very much thankful to Dr. V.G. Patel, director, EDII and N.V. Doshi, Director, CED for allowing me to study in their library and the literatures of the subject for my research study.

I can only remember with gratitude my respondents who willingly co-operated with me and whole heartedly responded to my questions.

Particular thanks must go to researchers who have devoted their contribution in research and publication in the area of "ENTREPRENEURSHIP DEVELOPMENT" without which the completion of my study would not have become reality.

I would like to thank publishers of various magazines, journals, research reports as well as editors of business newspapers for their immense help in providing me required reference material on the subject of the research study.
