ACKNOWLEDGEMENT

The author wishes to express his sincere gratitude to his research supervisor Dr. D. Stephen Sandegren, Professor of Civil Engineering, now, Registrar, Anna University, Madras for his valuable guidance, constant inspiration and useful discussions during the entire period of the research work, in spite of his heavy official responsibilities.

The author is thankful to the Professor, Centre for Appropriate Technology for having extended the facilities available there for this research work.

The author is thankful to Dr. P. Purushothaman, Professor of Civil Engineering and Dr. A.R. Santhakumar Professor of Civil Engineering for their encouragement.

The author wishes to thank Dr. A. Elangovan, Dr. M. Lakshmipathy, Dr. Bh. Nagabhushana Rao and Mr. G.M. Samuel Knight of the Structures Division and Mr. V. Ramachandran of the Computer Centre for their help during the various stages of this research work.

The author thanks all the teaching and non-teaching staff members of the Structures Division for their cooperation.
The author wishes to thank Mr. M. Samikkannu, Mrs. G.S. Manjula, M/s. R. Manivannan, G. Krishnamurthy, T.S. Loganathan and J.V. Madhavachary for their willing assistance during the preparation and conduct of the experiments.

The author is thankful to The Director of Technical Education, Madras for having sponsored him to do this research work for the Ph.D degree under Quality Improvement Programme and the Vice-Chancellor of Anna University, Madras for extending all the necessary research facilities.

The author is thankful to his wife and daughter for their encouragement and patience during the period of this research work.
