

ACKNOWLEDGEMENTS

No words can express my indebtedness to my advisor and role model, Prof. Arun Balakrishnan, whose untiring efforts and unwavering optimism are a source of inspiration and reverence. His steadfast commitment towards scientific excellence has navigated this work through blind alleys and cul de sacs on the dint of his perseverant diligence. I experience great honour and pride in being deeply influenced by his personality. It has been a truly challenging and rewarding experience striving to achieve milestone after milestone, with him.

I sincerely thank Prof. P.Kaliraj, Director, and Prof. K.Jayaraman, Centre for Biotechnology, Anna University for providing the excellent infrastructure to support research and training activity, with a global perspective. The students and faculty at the Centre also deserve credit for enabling an amiable environment, conducive to research and scientific enquiry.

My most sincere thanks are due to Dr. Katherina Jenny, the driving force behind the Indo-Swiss Collaboration in Biotechnology and Ms. Lydia Farago, whose reassurance and advice helped me through my training programme. I deeply appreciate the support and assistance extended to me by Dr. Wolfgang Renner, Ms. Sandra Kalin, Dr Wil Hazenberg and Dr George Orberger at Cytos Biotechnology, Zurich and Ms Xenia Masur, ETH, Zurich, and Dr. Eva Niederer, University of Zurich, who helped me with the Flow cytometry studies.

As a student of Biotechnology, I have absorbed several techniques from my senior colleagues, thanks to Dr. M.Ravichandran and Dr. V.Murugan. from whom I have learnt the basics of molecular biology. I am deeply grateful to Dr. K. Sankaran, who has spent many patient hours in discussion and analysis of results. My thanks are also due to the Cell Biology Team, Sunil,

Kishore, Dr. Somasundaram, Mr. P. S. Raju, Benazir, Giridharan and Raveshankar, for sharing the perfect understanding and team spirit, that places us a class apart.

I am obliged to Mr. T.R. Srikanth for his valuable assistance and all the members of the Office and Library staff their help. Acknowledgments are due to the Librarians of Central Leather Research Institute, Spic Science Foundation, Tuberculosis Research Centre, Chennai, and Eli Lilly Medical Library, and IUPUI Library, USA, for allowing me access to books and journals.

My earnest appreciation goes to my Doctoral Committee members, Dr P. R. Narayanan, Director, Tuberculosis Research Centre, and Prof. Niranjali Devaraj, Department of Biochemistry, University of Madras for their guidance in spite of their busy schedules.

The financial assistance provided to me by Torrent Pharma (JRF) and Council of Scientific and Industrial Research (SRF), New Delhi is gratefully acknowledged. This project has received financial assistance from Schering-Plough, Inc., USA.

During the compilation of this work , I have had the good fortune of working with some unstinting perfectionists, who have painstakingly reproduced in print, what was only a figment of my imagination. My thanks are due to Mr P Atri, Foto Plus, Kodambakkam, and Mr. Hariharan and Mr. Kasi, Hexaware Infosystems .

I also thank the Technical Staff at CBT, Ms. Ghousi, and others for their help. I also thank Mr. Gopi, Perambur abattoir, for helping with sample collection.

Last but not the least, I owe this achievement to the patience and moral support instilled in me by my family, without whose encouragement none of this would have been possible.
