</table>
5.4 Mean, SD, t-values and significance levels between WNOs and MNOs on General Attitudes towards Women in the Navy.

5.5 Mean, SD, t-values and significance levels between WNOs and MNOs on reasons for Combat Exclusion for women.

5.6 Frequency and percentage of WNOs and MNOs who feel combat for women should be compulsory/Voluntary/not permitted & of WNOs ready to volunteer for combat.

5.7 Mean SD, t-values and significance levels between WNOs and MNOs on perceived attitudes of male colleagues, subordinates and seniors towards women in the Navy.

5.8 Mean, SD, t-values, and significance levels between WNOs and MNOs on Core, Life Style and Economic Motives.

5.9 Frequency & Percentage Source of Opposition to joining the Navy.

5.10 Persons who encouraged WNO's and MNO's to Join the Navy.

5.11 Mean, S.D, t-values and significance levels between WNOs and MNOs on dimensions of Organizational Role Stress.

5.12 Research in India: Mean Occupational Role Stress of different occupational groups.

5.13 Comparison of WNOs and MNOs on Organizational Role Stress, with norms for Managers (Khanna, 1986).

5.14 Mean, SD, t-values and significance levels between WNOs and MNOs on Self – Actualization.

5.15 Mean, SD, t-values and significance levels between WNOs & MNOs on personality traits.

5.16 Chi-square and significance level of frequency of WNOs and MNOs classified androgynous, gender –typed, gender-reversed and undifferentiated.

5.17 A Comparison of Percentage of College Students, Women Managers and Naval Officers classified Androgynous, Feminine, Masculine and Undifferentiated.

5.18 Mean, SD, t-values and levels of significance between WNOs who are
and those who are not willing to volunteer for combat on Work Attitudes, Motivations and Self Actualization.

5.19 Mean, SD, t-values and levels of significance between WNOs who are and those who are not willing to volunteer for combat on Personality and Gender Role Identity.

5.20 Mean, SD, t-values and levels of significance between WNOs who are and those who are not willing to volunteer for combat on Occupational Role Stress.

5.21 Mean, SD, t-values and levels of significance between WNOs who are and those who are not willing to volunteer for combat, on various reasons for Combat Exclusion.

5.22 Mean, SD, t-values and levels of significance between WNOs who have high and those who have low Social Support on Work Attitudes, Work Motivations and Organizational Role Stress.

5.23 Frequency and Percentage of single WNOs and MNOs who prefer a service/civilian spouse, love marriage/arranged.

5.24 Mean, SD, t-values and levels of significance between married and single WNOs on work related attitudes.

5.25 Mean, SD, t-values and levels of significance between married WNOs with/without children on work related attitudes.

5.26 Mean, SD, F ratio with sum of squares, degrees of freedom and significance levels between gender and length of service on Job Satisfaction.

5.27 Mean, SD, F ratio with sum of squares, degrees of freedom and significance levels between gender and length of service on Organizational Role Stress.

5.28 Mean, SD, t-values and levels of significance between Naval officers with service of less than 5 years and 5+ years on Core, Economic and Life Style Motivation.

5.29 Mean, SD, t-values and levels of significance between Naval Officers who desire/do not desire extension of service on work related attitudes.
5.30 Mean, SD, F ratio with sum of squares, degrees of freedom and significance levels between gender and desire for extension on Organizational Role Stress.

5.31 Mean, SD, t-values and levels of significance between Naval officers who desire/do not desire extension on Core, Economic, Lifestyle Motivations.

5.32 Mean, SD, t-values and levels of significance between Naval Officers with/without family in the Armed Forces on work related attitudes.

5.33 Mean, SD, t-values and levels of significance between Naval Officers with/without family in the Armed Forces on Core, Economic and Lifestyle Motivation.

5.34 A). Mean, SD, F ratio (One-Way ANOVA) and significance levels between Naval Officers with F, M, A and U. Gender Role Identities on Job Satisfaction, Naval Lifestyle Satisfaction, Morale and ORS.

5.34 B) Scheffe’s Post Hoc Tests for Morale

5.35 Correlations between Gender Role Identity, Self-Actualization, Personality traits, with Job Satisfaction, Naval Lifestyle Satisfaction, Morale, Motivation and ORS.

5.36 Stepwise Regression of Work Attitudes, Motivations and Organizational Role Stress with Masculinity, Femininity, Self-Actualization and Personality Variables, N=130.

5.37 Correlations between Motivational Factors, Work Related Attitudes and Organizational Role Stress, N=130.

5.38 Stepwise Regression of Work related attitudes and ORS with Motivational factors N=130

5.39 Correlation between dimensions of Organizational Role Stress with Work Related Attitudes N=130.

5.40 Stepwise regression of Work Related Attitudes with ORS Dimensions N=130.

5.41 Frequency of WNOs and MNOs mentioning aspects of the Navy they like the most.
5.42 Frequency of WNOs and MNOs mentioning aspects of the Navy they like the least.

5.43 "Advantage of being of the Opposite Sex": Responses of WNOs and MNOs in frequency and percentage.

5.44 Special concessions for Women Officers: Responses of WNOs and MNOs in frequency and percentage.
