Acknowledgement

I am fortunate enough to have my guide Dr. Manas Kanti Deb (INSA fellow, New Delhi) by the grace of God as he is my 'Guru'. Whenever my steps, while working on the way of research, trembled he with all enthusiasm strengthened me all the time. What I am achieving would have been impossible without his keen guidances. It won't be exaggerated if I declare him to be the pivot of my sole achievement. My hearty thanks to the family members of my 'Guru' who ever inspired me for my work.

Dr. R.K. Mishra, Ex-Head of SOS in chemistry has been my source of energy to carry out my work. I cannot forget inspirations and affections and guidances extended to me every now and then by Mr. and Mrs. Mishra. My heart-felt thanks will be alive till my last breath.

My deep regards and thanks to Prof. V.K. Gupta, Head, SOS in Chemistry, Pt. R.S. University who has been always helping and facilitating me during my research work.

I extend my earnest thanks to Dr. G.L. Mundhra, Reader, SOS Chemistry, Pt. R.S. University for encouraging and inspiring me from time to time during whole my research work. My thanks are due to Dr. K.S. Patel, Sr. Lecturer, SOS Chemistry, Pt. R.S. University and Dr. N. Bodhankar, Sr. Lecturer, SOS Geology, Pt. R.S. University, for being all time cooperative and quite easy in behaving.

I would remain highly indebted to Dr. S.G. Agrawal, Dr. Shabaz Khan, Mr. Pankaj Tamrakar and Ms. Nidhi Tiwari for useful suggestions and encouragement. I am also thankful to staff members of Chemistry Department for excellent cooperation.

My thanks are also to Mr. Sushil Agrawal, Super Graphics and Mr. K. K. Shrivastava, Scan Computer, Raipur, for composing the thesis and converting the pages in ink to the present mass output.

I fall short of words in expressing my feelings towards my beloved parents who always cared for me and remained very close to me emotionally despite all the constraints and odds. I owe a lot to them. In fact it is their love and affection, which enabled me to bring this work to a sound end.

I thank MPCOST, Madhya Pradesh Council of Science and Technology, Bhopal, for awarding me J.R.F., in the project sanctioned to Dr. M. K. Deb, during the course of this investigation. And I am also thankful to the Council of Scientific and Industrial Research, CSIR, New Delhi for awarding me Senior Research Fellowship during my research.

Place : Raipur (M.P.)
