ACKNOWLEDGEMENTS

This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and various institutions. At the end of my thesis I would like to thank all those people who made this thesis possible and an unforgettable experience for me. At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

At this moment of accomplishment, I start with thanking my research guide, Prof. M Subhas Abel for his quick evaluation and decision on my Ph. D application. In fact, it was a big surprise for me to receive your positive reply with in a few minutes after I had applied for the PhD position, thank you for your confidence and trust on me. I had a great freedom to plan and execute my ideas in research without any pressure. This made me to identify my own strength and drawbacks, and particularly boosted my self-confidence. It was great working with you Prof.M S Abel, and my heartfelt thanks to you.

My big thank go to Dr. Mahesha Narayana, Asst. Prof, Ramaiah University of applied science, Bangalore. Thank you doesn’t seem sufficient but it is said with appreciation and respect to him for his support, encouragement, care, understanding and precious friendship. I am much indebted to Mahesha N sir for his valuable advice in my work, spending his precious times to read this thesis and gave his valuable suggestions.

I convey special acknowledgement to Dr. Sharanagowda Malipatil, Prof. PDA College of Engineering Gulbarga. During the inevitable ups and downs of conducting my research he often reminded me life’s true priorities. This helped me a lot to work in research. I doubt that I will ever be able to convey my appreciation fully, but I owe his my eternal gratitude.
I would like to thank all the teaching and non-teaching staff members of department of Mathematics, Gulbarga University for their constant support and encouragement during my stay, and my sincere gratitude Kattimani sir, asst. librarian, Gulbarga University, Kalaburagi for providing the library facilities towards the research work.

I am immensely grateful to Vijay Sir, primary school teacher, Narasimha Murthy sir, high school teacher, and Subrahmanyam sir, asst. prof at LVD college Raichur, for their kind encouragement and advices.

I want to thank my parents Sri Basangouda and Smt. Sharada for their kind support, the confidence and the love they have shown to me. You are my greatest strength and I am blessed to be your daughter. I also would like to thank my beloved brother Vinod.K for being a good friend and understanding me well in various situations.

I would specially like to place on record my deep sense of appreciation, affectionate encouragement, moral support and all the co-operation I have received from my beloved husband Rajshekhar S Bablad.

My heartfelt thanks to my grandparent Sri. Sharanappa Bablad and Smt. Neelamama Bablad, Words are short to express my deep sense of gratitude towards my following relatives and family friends, Dr. Veerabhadrappa Harashni, President of Karnataka State Medical Council, Dr. Indira V H, Dr. M S Patil, Vasundara Patil, Nagangouda Patil, Ansuya Patil, Late Chandrashekhar bablad, Ratanvel Nadar, Omkar Uncle, Veeranna uncle, Suraj Kamalapure, I would like to thank Prashant G Metri for your support on various technical issues, advices and suggestions on my experiments.

Special thanks to all my colleagues of PDA College of Engineering, Gulbarga (Dept. of Mathematics) classmates, research scholars, friends, for their kind help and support. I am thankful Department of Science and Technology, New Delhi, for providing financial support to carry out this work under the RFSMS fellowship.

Kalaburagi,

India June, 2015

VEENA M BASANAGOUDA
