ACKNOWLEDGEMENT

The author expresses his profound sense of gratitude and heartfelt thanks to the research supervisor, Dr. A.R. Santhakumar, Professor of Structural Engineering, for his keen interest, valuable suggestions, unhesitating and expert guidance given from the inception to the culmination of this research work.

The author equally expresses his deep sense of gratitude and sincere thanks to Dr. Bh. Nagabhushana Rao, Lecturer in Civil Engineering, for his constant guidance and useful suggestions throughout the course of this research work.

The author also thanks his colleagues who helped him at various stages, especially Dr. M. Lakshmipathy, Dr. A. Swamidurai, Dr. S. Elangovan, Mr. M. Sekar, Mr. E. Arumugam and Mr. P. Devadas Manoharan.

The constant encouragement of Dr. D. Stephen Sandegren and Dr. P. Purushothaman are gratefully acknowledged.

The author acknowledges the authorities of Central Power Research Institute, Bangalore, India for permitting him to witness the prototype test during testing.

Thanks are due to those non teaching staff of the Structures Division who have helped the author in testing the segment of the tower Messrs. M. S. Vijayakumar, M. Loganathan, Md. Naziruddin, K. Balaraman, A. Antony Doss and Srinivasan are specially thanked in this regard.
The author wishes to thank all the students who helped him in various testing programmes. The help rendered by Messrs. S.Ramamoorthy, N.Rajendran, G.S.S.Chellakumar and P.Masilamani are acknowledged.

Mrs. R.Uma is thanked for her prompt drafting of the figures and graphs.

Mrs. G.S.Manjula and Mrs. N.Sugunakumar are thanked for their help in typing the thesis.

The author wishes to express his gratitude to his parents for their motivation and support.

The patient co-operation, devotion and encouraging words from his wife and son, made the author fulfil his cherished wish of completing the research programme smoothly. The indebtedness of the author to these members of the family is beyond expression.

Finally the author wishes to thank the Vice-Chancellor and the authorities of the Anna University, Madras, for providing necessary facilities and for the financial assistance towards the preparation of the thesis.

There are many more who have assisted the author in ways beyond expression; to all those his gratitude is profoundly due.
