ACKNOWLEDGEMENT

The author wishes to convey his heartfelt thanks to Dr. S. NATARAJAN, Professor and Head, Department of Physics, College of Engineering, Anna University, Madras for his inspiring guidance and constant encouragement to make this investigation a success.

The author expresses his warm and totally inadequate thanks to Dr. S. MOHAN, Professor of Physics, Raman School of Physics, Pondicherry University, Pondicherry for his invaluable guidance and suggestions to carry out this research work.

The author is deeply indebted to Dr. P. RAMASWAMY, Director, Crystal Growth Centre, Anna University, Madras for his enthusiastic encouragement during the course of this investigation.

The author also extends his thanks to the authorities of Indian Institute of Technology, Madras and Indian Institute of Science, Bangalore, for their help in recording the spectra.

Finally, but most importantly the author is extremely thankful to one and all, who extended their help in carrying out this work.

FERIDOUN PAYAMI
