ACKNOWLEDGEMENT

The author bestows his deep gratitude to his supervisor, Prof. C. Subramanian, for his profound scientific knowledge, technical ability, concerted guidance and courteous personal attention which have stood as a beacon light for the author in carrying out this work.

The author is extremely grateful to Prof. P. Ramasamy, Director, Crystal Growth Centre, for introducing him to the exciting field of Crystal Growth, sharing his valuable ideas and for his constant encouragement. The author reveres him more, than just make it a formality to thank him in these terms.

The author considers it a greatest virtue for the introduction into materials science research by one of the revered scientists Prof. V. Devanathan, Emeritus Professor, Crystal Growth Centre. His moral encouragement and profound goodwishes have stirred the author to achieve this milestone.

The author expresses his deep sense of gratitude to Dr. F. Joseph Kumar and Dr. S. Balakumar, National University of Singapore, for their scientific association, appropriate suggestions and personal contribution which is multitude and never ending.

The author places his wholesome gratitude to Dr. R. Jayavel, Crystal Growth Centre and Dr. P. Murugakoothan, Dr. Sivanthi Adithanar College of Engineering for their personal endeavour and meticulous ideas. The author is highly grateful to his friends Mr. C. V. Kannan, Dr. G. Arunmozhi, Mr. R. Ilangovan, Mr. N. Dharmarasu, Mr. S. Kumaranarubaran and other members of Crystal Growth Centre for their encouragement, timely help and cooperation.

The author places on record the help rendered by Dr. G. Bocelli, Universita' degli Studi di Parma, Italy, Dr. T. Nagarajan, Emeritus Professor, Crystal Growth Centre, Dr. P. R. Subramanian and Dr. A. Narayanasamy, Department of Nuclear Physics, University of Madras, Dr. P. Ramamoorthy, Department of Inorganic Chemistry, University of Madras, Dr. G. V. N. Rao, IGCAR, Kalpakkam, for their timely help, fruitful discussion and characterization facilities extended.

The author is grateful to the CSIR, Government of India for the award of Senior Research Fellowship.

The author expresses his heartfelt thanks to his parents and sisters, who have been behind the advancement of his studies.

S. GANESA MOORTHY
