

## LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
1.1	Description of the coastline in India	2
1.2	Tidal variations along the Indian coast	7
1.3	Near shore current characteristics along the Indian coast	8
2.1.	Geographical location and areas of Gulf of Mannar Islands	18
2.2	General stratigraphy of the study area	24
4.1	General classification of coastal geomorphology	40
4.2	Image characteristics of the coastal geomorphic classes	41
4.3	Changes in bathymetry for about 24-year period between Tuticorin and Sippikulam coastal area	50
4.4	Changes in bathymetry for about 24-year period in Mandapam coastal area	51
4.5	Accuracy matrix of coastal geomorphology map prepared from IRS-1D LISS-III imagery	53
4.6	Various geomorphic classes and their areal extent in study area	54
4.7	Areal distribution of offshore islands and types of reefs and their areal extent	74
4.8	Coastal erosion sites along the study area	80
4.9	Coastal accretion sites along the study area	81
4.10	Changes in location and size of Tuticorin group of islands during 1969 and 1998	93

TABLE NO.	TITLE	PAGE NO.
4.11	Changes in location and size of Vembar group of islands during 1969 and 1998	93
4.12	Changes in location and size of Keelakkarai group of islands during 1969 and 1998	94
4.13	Changes in location and size of Mandapam group of islands during 1969 and 1998	95
5.1	Coastal population of some countries in the world	127
5.2	Population, its density and growth in the coastal states of India as per 1991 census	128
5.3	District-wise population and its density of coastal Tamilnadu as per 1991 census	129
5.4	Details of district-wise distribution of urban centers in the study area and their population as per 1991 census	130
5.5	Details of fishermen population in the study area	131
5.6	Population and growth of population in Ramanathapuram district from 1901 to 1991	132
5.7	Population and growth of population in Tuticorin district from 1901 to 1991	134
5.8	Land Use and Land Cover Classification System for use with Remote Sensing Data (Anderson et al 1976)	137
5.9	Land use/land cover classification for India developed by National Remote Sensing Agency, India (Goutham and Narayan 1982)	138
5.10	Image characteristics of the coastal land use/land cover classes interpreted through the images of IRS satellites	142

TABLE NO.	TITLE	PAGE NO.
5.11	Accuracy error matrix of coastal land use/land cover map prepared from IRS-1D LISS-III imagery of May 1998	143
5.12	Various land use and land cover categories and their areal extent as observed in 1988 and 1998	144
5.13	Land use and land cover changes in the study area from 1988 to 1998	159
7.1	Estimated areas of coral reefs in India (sq.km)	183
7.2	Estimated potential fish yield from Indian coral reefs (Wafar 1986)	187
7.3	Classification system used for coral reef mapping	203
7.4	Image interpretation key for mapping of coral reefs	204
7.5	Areal distribution of coral reefs and its changes observed during the period from 1988 to 1998	203
7.6	Classification of coral reefs and other features obtained through K-Means clustering	211
7.7	Accuracy error matrix for coral reef mapping using maximum likelihood classification	216
7.8	Accuracy error matrix for coral reef mapping using PCA	220
7.9	Number pixel value of each training set class	221
7.10	Accuracy error matrix for coral reef mapping using visual techniques	227
7.11	Various land use and land cover categories and their areal extent as observed in 1988 and 1998	230
