

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
2.1	Location map of the Gulf of Mannar	17
2.2	Drainage map of Gulf of Mannar coast	20
2.3	Geology map of Gulf Mannar coast	23
3.1	General methodology	29
4.1	General methodology for coastal geomorphology mapping	38
4.2	Coastal geomorphologic map of Gulf of Mannar derived from IRS -1D LISS-III data (1998)	42
4.3	Methodology for shoreline mapping	43
4.4	Shoreline map of Gulf of Mannar derived from SOI toposheet (1969)	44
4.5	Shoreline map of Gulf of Mannar derived from IRS LISS-III satellite data (1998)	45
4.6	Shoreline-change map of Gulf of Mannar (1969-1998)	46
4.7	Bathymetry map of Gulf of Mannar coastal region (Based on 1975 Naval Hydrographic Chart)	48
4.8	Digital bathymetry model for continental shelf and offshore islands of Gulf of Mannar	49
4.9a&b	IRS LISS-III imagery (1998) showing the spit near Guntagul and Valinokkam	60
4.10	Beach ridge near Kurangottur	68

FIGURE NO.	TITLE	PAGE NO.
4.11	Back swamp and mangrove at the mouth of Korampalam Odai near Tuticorin	68
4.12	Sand dune complex at the southern coastal plain of Rameswaram Island	68
4.13	Teri dune complex near Maravanmatam	68
4.14	Offshore island (Mullai Island)	77
4.15	Sea cliffs and sea caves at southwestern coast of Appa Island	77
4.16	Wavecut platform at Mandapam coastal area	77
4.17	Salt pans in the south of Tuticorin	77
4.18	Shoreline change map between Tuticorin and Vaippar River (1969-1998)	82
4.19	Shoreline change map between Vaippar and Gundar Rivers (1969-1998)	85
4.20	Shoreline change map between Gundar and Palar Rivers (1969-1998)	86
4.21	Shoreline Change Map Between Pallar and Kottakkarai Rivers (1969-1998)	88
4.22	Shoreline change map between Kottakkarai River and Thoniturai (1969-1998)	90
4.23	Shoreline change map of Rameswaram Island (1969-1998)	91
4.24	Island erosion in the north and northeast coast of Shingle Island	97
4.25	Island erosion in the north of Appa Island	97
4.26	Island erosion and accretion map of Tuticorin group of islands	99

FIGURE NO.	TITLE	PAGE NO.
4.27	Island erosion and accretion map of Vembar group of islands	101
4.28	Island erosion and accretion map of Keelakkarai group of islands	105
4.29	Island erosion and accretion map of Mandapam group of islands	108
4.30	Bathymetry map off Tuticorin coastal region (1999)	116
4.31	Bathymetry map off Mandapam coastal region (1999)	117
4.32a	Sea floor changes at Tuticorin and Van Island (1975-1999)	118
4.32b	Sea floor changes at Vappalodi and Vilangu Shuli Island (1975-1999)	118
4.32c	Sea floor changes at Marakkyarpattinam (1975-1999)	118
4.32d	Sea floor changes at Gundugul and Kursadi Island (1975-1999)	118
4.33	Landsat TM satellite imagery showing the sediment transport from Palk Bay to Gulf of Mannar during northeast monsoon period	121
4.34	Sand bar formation between Manalli and Manalli Putti Islands	123
4.35	Raised reef in the south of Muli Island	123
5.1a	Growth of population in coastal districts of Tamilnadu	133
5.1b	Growth of population in Ramanathapuram District	133

FIGURE NO.	TITLE	PAGE NO.
5.1c	Growth of population in Tuticorin District	133
5.2	General methodology adopted for landuse and landcover change detection	141
5.3	Coastal landuse and landcover map of Gulf of Mannar coastal area derived from IRS LISS-II satellite data (1988)	146
5.4	Coastal landuse and landcover map of Gulf of Mannar coastal area derived from IRS LISS-III satellite data (1998)	147
5.5a & b	Island vegetation in Kurusadi Island	153
5.6	Coconut plantation in Nalla Tanni Island	153
5.7	Mangrove vegetation in Mullai Island	153
5.8	Changes observed in cropland in Gulf of Mannar coastal area obtained from IRS LISS-II (1988) and IRS LISS-III (1998) satellite data	160
5.9	Changes observed in fallow land in Gulf of Mannar coastal area obtained from IRS LISS-II (1988) and IRS LISS-III (1998) satellite data	162
5.10	Changes observed in agricultural plantation in Gulf of Mannar Coastal Area Obtained from IRS LISS-II (1988) and IRS LISS-III (1998) Satellite Data	163
5.11	Changes observed in forest plantation in Gulf of Mannar coastal area obtained from IRS LISS-II (1988) and IRS LISS-III (1998) satellite data	164
5.12	Changes observed in scrubland in Gulf of Mannar coastal area obtained from IRS LISS-II (1988) and IRS LISS-III (1998) satellite data	166

FIGURE NO.	TITLE	PAGE NO.
5.13	Changes observed in sandy area in Gulf of Mannar coastal area obtained from IRS LISS-II (1988) and IRS LISS-III (1998) satellite data	167
5.14	Changes observed in tank in Gulf of Mannar coastal are obtained from IRS LISS-II (1988) and IRS LISS-III (1998) satellite data	169
7.1	Coral reef distributions in India	182
7.2	Coral reef distributions in Tamilnadu	185
7.3	Methodology adopted for coral reef mapping	201
7.4	Coral reef map of Gulf of Mannar derived from IRS LISS-II (1988) satellite data	205
7.5	Coral reef map of Gulf of Mannar derived from IRS LISS-III (1998) satellite data	206
7.6	Coral reef classification using K-Means clustering method derived from IRS LISS-III satellite data for Pumurichan, Kovi, Kursadi and Shingle Islands	208
7.7	Coral reef classification using K-Means clustering method derived from IRS LISS-III satellite data for Musal, Manalli and Manalli Putti Islands	209
7.8	Coral reef classification using K-Means clustering method derived from IRS LISS-III satellite data for Tuticorin group of islands	210
7.9	Coral reef classification using MLC method derived from IRS LISS-III satellite data for Shingle, Krusadi, Kovi and pumurichan Islands	213
7.10	Coral reef classification using MLC method derived from IRS LISS-III satellite data for Musal, Manalli and Manalli Putti Islands	214

FIGURE NO.	TITLE	PAGE NO.
7.11	Coral reef classification using MLC method derived from IRS LISS-III satellite data for Tuticorin group of islands	215
7.12	Coral reef classification using PCA method derived from IRS LISS-III satellite data for Shingle, Krusadi, Kovi and Pumurichan Islands	218
7.13	Coral reef classification using PCA method derived from IRS LISS-III satellite data for Musal, Manali and Manalli Putti Islands	219
7.14	Coral reef zonation in Gulf of Mannar	224
7.15	Shallow sandy bottom at the southeastern side of Kariya Shuli Island	226
7.16	Massive corals in the north of Kursadi Island	226
7.17a	Seaweed growth in the south of Kursadi Island	226
7.17b	Seagrass growth in the north of Kursadi Island	226
7.18a	Dead corals in the east of Shingle Island	229
7.18b	Dead corals in the south of Appa Island	229
7.19a	Seaweed collection in the south of Muli Island	235
7.19b	Seaweed collection in the Manalli Putti Island	235
7.20a&b	Coral mining near Tuticorin	235
7.21	Suspended sediment load in the coastal water between Tuticorin and Vembar River derived from IRS LISS-III satellite data	241
7.22	Suspended Sediment Load in the coastal water between Vembar River and Dhanushkodi derived from IRS LISS-III satellite data	242
