ACKNOWLEDGEMENT

It gives me immense pleasure in being able to submit this Ph. D. thesis. I would like to express my countless gratitude to “God” who gave me the inspiration, health and strength throughout the pursuit of studies to achieve a long cherished dream.

It needs not to be stressed that the combined efforts of both the teacher and student are indispensable for achieving success in his case. For the teacher it requires patience, devotion, perseverance and the student requires sincerity and hard work to sum up. It is with the deep sense of gratitude and high respect that I acknowledge the most valuable guidance and encouragement given by Dr. Sunil Ramrao Mirgane, Associate Professor, P. G. Department of Chemistry, Jalna Education Society’s R. G. Bagdia Arts, S. B. Lakhotia Commerce, R. Bezonji Science College, Jalna during the course of this work. He explained the toughest part subject matter, which made me to understand the field of physical properties and assured a very happy completion. He has been more than a research guide to me.

I am indebted to respected Prof. B. R. Arbad, Head, Department of Chemistry, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for his valuable guidance, worthy suggestions, stimulating discussions, keen interest and inspiration at each and every stage of research work.

I sincerely thankful to “Sahakar Maharshi” Adv. Ankushraoji Tope, Ex. M. P. and President, Matsyodari Shikshan Sanstha and Shri. Rajesh Bhaiyya Tope, Educational Minister of Maharasthtra State for their constant encouragement throughout this research work.

I also sincerely thankful to my teachers Prof. C. H. Gill, Prof. M. S. Shingare, Prof. R. A. Mane, Prof. T. K. Chondhekar, Dr. M. K. Lande, Dr. S. T. Gaikwad, Dr. A. S. Rajbhoj, Dr. B. R. Sathe, Dr. B. B. Shingate, Dr. S. G. Shankarwar, Shri. S. R. Sonone, Mrs. G. M. Bondle, Ms. A. S. Chavan for their unparallel support.

I also wish to pay my sincere thanks to Principal Dr. R. S. Agrawal, former head Dr. S. M. Deshpande and present head of department of chemistry Dr. P. G. Mundhe of J. E. S. College, Jalna for granting me permission to undertake this work, for allowing to submit this work in the form of thesis and their constant encouragement throughout this work.
I am also thankful to faculty members of department of chemistry, J. E. S. college, Jalna for their co-operation and constant encouragement specially Dr. B. R. Agrawal, Dr. D. M. Janrav, Shri. A. Khandebharad, Shri. S. R. Sadavarte, Dr. S. B. Bikkad, Dr. S. R. Sarda, Shri. V. K. Pagare, Shri. A. R. Mahajan, Shri. M. G. Soni and Shri. M. M. Malode for their support.

I am thankful to Principal Dr. Archana Thosar, Mastyodari Shikshan Sanstha’s, College of Engineering and Technology, Jalna for pursuit of the research work.

I would like to acknowledge Shri. N. B. Gaikwad, Shri. K. V. Deshmukh, Shri. B. G. Suryawanshi and Shri. D. M. Solanke for their best wishes.

A special mention must be made of thanks to Dr. Sushant Deshmukh for helping in computer programming.

I owe my thanks to Shri. Uddhav Deshmukh, Shri. Amol Pawar and Shri. Vishal Kulkarni for computerized data analysis. I also thankful to Manoj Mane and Dattatary Devlankar, National Chemical Laboratory, for helping me in referencing during this research work.

Many thanks also go to non-teaching staff Shri. D. B. Gullapelli, Shri. B. P. Phadat, Shri. A. K. Zine, Shri. D. N. Karad, Shri. J. A. Athawale, Shri. S. F. Rathod, Shri. V. B. Bhalerao and Shri. S. V. Kamble for their valuable help in carrying out this work.

I will be failing in my duty if do not record my appreciation and heart-felt thanks to my research colleagues, Dr. A. A. Sakalgaonkar, Dr. G. R. Bhagure, Dr. A. V. Gaikwad, Shri. J. D. Kale, Shri. Vilas Khade, Shri. R. V. Ambhure, Shri. D. U. Thombal and Shri. Gopal Khedekar for providing pleasant and encouraging atmosphere to research work.

I would like to thank especially to Department of Science and Technology, Government of India for awarding me Junior Research Fellowship.

I sincerely thankful to my grandparents Shri. Sunderrao M. Vazarkar, Ex. Registrar, Marathwada Krishi Vidyapeeth, Parbhani and Sou. Vatsalabai S. Vazarkar for their constant support and their blessings.

I feel honored to express my deep feeling of gratitude to my mother Smt. Vimal S. Patil who inspired me to do this work and encouraged time to time. She always boosted my moral at every stage of this work.
My heartiest thanks to my husband Shri. Dhananjay R. Vazarkar for his dedication and motivation helped me for providing sound base to my research work. Despite all this, I can’t remain without thanks to my lovely daughter Ku. Akshara for her patience and support during this period. Her sweet presence and silky touch gives me inspiration to carry out this thesis.

I am thankful to my grand mother-in-law Smt. Druapadibai O. Vazarkar for her blessings. I am also thankful to my mother-in-law Smt. Meena R. Vazarkar, sister-in-laws Smt. Chhaya P. Vazarkar, Sou. Shobha A. Shelke for their best wishes. I am thankful to my niece Ku. Bhakti A. Shelke and nephew Chi. Rushikesh A. Shelke for their co-operative enthusiasm during the period of this work.

I am also deeply thankful to Sou. Lata B. Arbad, Sou. Sunita S. Mirgane, Sou. Manjushree N. Misal, Chi. Saurbh Mirgane and Chi. Siddharth Mirgane for their kind care and homely behavior during this work.

I am thankful to all my colleagues and friends who have always motivated and inculcated encouragement throughout my research work. I also take this opportunity to express my sincere regards and gratitude to all my family members for their blessings and affection without which this work would never been completed.

My unstinted thanks to all my well-wishers not mentioned above, but whose good wishes and persuasions enabled me to carry this thesis.

The thesis work has taught me immense patience and perseverance. Apart from completion of this thesis the journey has been a real award for me.

Sujata Sheshrao Patil
