Acknowledgment

It is with the sense of professional fulfillment and immense pleasure that I would like to acknowledge the encouragement and support rendered to me by the host of people, which has given me the knowledge and vision for the successful accomplishment of my goal. I extend my most profound gratitude, immense pleasure and heartfelt thanks to my esteemed research guide and teacher Dr. Saroj R. Bembalkar, Associate Professor, Department of Chemistry, Deogiri College, Aurangabad for her help, support and constant encouragement throughout the progress of this research work.

In the truest sense, my sky high respect to my guru Dr. Vijayavitthal T. Mathad, Vice President, R & D, Megafine Pharma (P) Ltd, Nashik for conferring full liberty to extract the better out of the best. He gives a very special attention in the entire process of my research carrier. He not only extended the administrative and infrastructural support for this work but motivated me in achieving the targets with sincerity and honesty. He has always encouraged me with his words and actions, remarks and reactions. Once again and forever, I cherish to express inviolable regards to him for his indefinable humanity.

I also owe my indebtedness to Dr. Magdum Farooqui, Principal, Maulana Azad College, Aurangabad and Dr. Mazahar Farooqui, Associate Professor and Head, Department of Chemistry, Maulana Azad College, Aurangabad for providing all the essential facilities and encouragement given to me during exploratory research work, which was completed successfully.

I would like to thank the management of Megafine group for supporting this work. We would also like to thank colleagues in the division of Research and Development of Megafine Pharma (P) Ltd for their cooperation in carrying out this work.
It is with great pleasure that I place on record my deep sense of gratitude to Dr. P.V. Jabde, Principal, Deogiri College, Aurangabad for his support throughout the progress of this work. My heart felt thanks to him for valuable suggestions given time to time and immense help in my research work, which it would have been an unachievable work.

It is with great pleasure that I place on record my deep sense of gratitude to Dr. Rajendra P. Pawar, Associate Professor and Head, Department of Chemistry, Deogiri College, Aurangabad for his help, support and constant encouragement throughout the progress of this work. My heart felt thanks to him for valuable suggestions given time to time and immense help in my research work, which it would have been an unachievable work.

I shall always recall with affection the kind co-operation and valuable suggestions of Mr. Shashikant B. Landge, Head A R & D, Megafine Pharma (P) Ltd., Nashik, who helped me in all respect through the useful discussion during my research project.

Finally I am left with no other words to express my sincere honest, heartfelt gratitude to my family members, my brother Rajiv A. Jadhav for tremendous encouragement, support, prayer and love which has been a real source of inspiration without which it would have been impossible for me to complete this task. I also, heartly express my sincere thanks and dedicate present work and future successes to my late-grand father, Ramarao (Dada).

Date : / / 2012

MR. SANJAY A. JADHAV
Research Student
