

ACKNOWLEDGEMENT

I am grateful to a lot of people without whose help and support I would not be able to complete this thesis. I express my deep sense of gratitude to my supervisor Dr. B. Indrajit Sharma for his valuable advice, deep involvement and continuous encouragement. I consider myself to be very fortunate to have a co-supervisor like Prof. H. Nandakumar Sarma, Manipur University. I am very grateful for his detailed, painstaking and perspicuous comments, constructive suggestions and providing laboratory facility at Department of Physics, Manipur University. I am thankful to him for spending time to hear my problems inspite of his very tight schedule and introducing me to the field of nanotechnology.

I am indebted to Dr. Arti Deshmukhya, Head, Department of Physics for her kind support and guidance and my sincere thanks to ex-Dean of Physical Sciences Prof. D. Biswas, Department of Mathematics and current Dean of Physical Sciences Prof. Bipul Purkyastra, Department of Computer Sciences for the smooth processing of the official procedures. My heartfelt gratitude goes to all the teaching faculty of Physics Department namely Prof. Asoke. K. Sen, Prof. Ramendu Bhattacharjee, Dr. Himadri Sekhar, Dr. A. Seniorita, Dr. Utpal Sarkar, Dr. P.K. Shukla, Mr. Swarandeeep Biswas, Dr. Bidhan Mohanta, Dr. Lalthakimi Zadeng and Dr. Barilang Mawlang and non-teaching staffs for being supportive and co-operative all through my research work.

I would like to express my deepest appreciation to Dr. K. Nomita Devi, Assistant Professor, Department of Physics, Manipur University. Without her encouragement and suggestions during the experimental work, it would have been impossible for me to complete my work. She has always been ready to offer her help whenever needed.

I also acknowledge my sincere thanks to Prof. Sh. Dorendrajit Singh, ex-Head, Department of Physics, Manipur University for allowing me to work at the Department.

I am grateful to Dr. Bobby Soram, Research Assistant, Manipur University for taking XRD measurements and helping me in the analysis of the data. I am thankful to Dr. N. Manoranjan Singh, Department of Physics, Manipur University for his help in taking SEM and EDX measurements. I am also thankful to Department of Chemistry, Manipur University for allowing me to use the spectrophotometer for taking FTIR. I am also grateful to Mr. Joston P. Nongkynrih, Sr. Technical Assistant, SAIF, NEHU, Shillong for taking TEM measurements.

I wish to thank all my work group members especially Ng. Bedamani Singh, Daina Thoudam, Dr. R.K. Bhanisana, Ng. Bonis Singh and Ch. Shyam Singh for being so supportive to me in difficult moments and nice friendship.

I will fail my duty if I forget to record my appreciation to my ex-Principal Md. Khalilur Rahman, the current Principal Dr. Kunjani Devi, Lilong Haoreibi College, Thoubal District, Manipur for granting me leave and to my colleagues of the Department of Physics for their kind co-operation.

I would like to express my special appreciation to my husband, Y. Chandra Kumar Singh, my parents, my in-laws and especially my three lovely children Supriya Y., Aishwarya Y. and Aditya Y. Their support, sacrifice, care and love are endless hence so is my gratitude. I miss my mother-in-law Late Th. Bhani Devi who also is a source of encouragement which I loss during the course of my research work.

Last, but not the least I wish to thank all my friends, colleagues and well wishers who have helped me directly or indirectly in completing this research work.

(LOKTONGBAM SUJATA DEVI)
