ACKNOWLEDGEMENT

First of all, I must express my sincere thanks and immense gratitude to Dr Sanjay Panwar, Associate Professor, Department of Physics, Maharishi Markandeshwar University (MMU), Mullana (Ambala) and Dr Satendra Kumar Sharma, Professor, Department of Physics, Shivalik Institute of Engineering & Technology, Aliyaspur (Ambala). They have been the inspiring and driving force for this work. Without their timely and untiring help, it would not have been possible to present the thesis in the present shape. I owe my thanks for their constant encouragement and support. I will remain grateful to them for their sincere guidance, inspiration and intellectual inputs during the course of this work.

I am extremely thankful to Sh Tarsem Kumar Garg, Chancellor and Dr S G Damle, Vice Chancellor, MMU, Mullana (Ambala) for providing me an opportunity to carry out the work and Prof (Dr) J K Sharma, Principal, M M Engineering College, MMU, Mullana (Ambala) for his constant encouragement and sincere advice throughout this investigation.

I am thankful to Prof (Dr) Vandana Sharma, Head, Department of Physics, MMU, Mullana (Ambala) for her support and valuable suggestions. The continuous inspiration and constructive criticism by Members of DRC Dr S K Mahna, Dr Anil Kumar and Dr Sukhjeet Singh, are also gratefully acknowledged.

With great pleasure and sincerity, I would like to humbly dedicate my thesis to Late Prof (Dr) S K Srivastava, who has been the driving force for the initiation of present work.

I am thankful to Mr Sanjay Thakral, Department of Applied Science, N.C. College of Engineering, Israna, (Panipat) for his kind help and co-operation during my research work.

I am grateful to the management and faculty of Shivalik Group of Institutions, Aliyaspur (Ambala) for their valuable co-operations. My thanks are also due to my friends and colleagues Ms Megha Goel and Er Huma Singh.
Mrs Vandana Sharma and her little blossoms are highly acknowledged for their support and help when required. My special thanks are due to Dr Pallavi Sinha, Department of Chemistry, Geeta Institute of Engineering and Technology, Kurukshetra for her kind co-operation.

I must express my marvelous obligation to my parents and in-laws. A sense of apology is due to my loving daughter Gitanshi Verma, who probably missed many precious moments of motherly love and care. My husband Er Deepak Verma deserves special thanks and grand appreciation for his persistent moral support and capability to rejuvenate me during the leaning phase of the work.

Above all, I am highly indebted to Almighty God who blessed me with spiritual support and fortitude at each and every stage of this work.

MONIKA PANWAR
