ACKNOWLEDGEMENT

With all humility and sincerity, I bow before the 'ALMIGHTY', whose grace and blessings gave me courage and wisdom to accomplish this important task of my life.

I would like to express my deepest sense of gratitude and indebtedness to my worthy supervisor, Prof. (Dr.) Jagbir Singh, Head, Department of Zoology and Environmental Sciences, Punjabi University, Patiala and my co-supervisor, Dr. Pradyumn Kumar, Principal Scientist, Directorate of Maize Research (DMR), Indian Agricultural Research Institute, New Delhi for their invaluable guidance, constant encouragement, cooperative attitude and immense patience during the course of investigation and preparation of the manuscript. Through his Socratic questioning and constructive criticism, Dr. Pradyumn Kumar guided me through the course of the research. His comments on chapter drafts are themselves a course in critical thought upon which I will always draw.

I am thankful to Prof. Devinder Singh, Former Head, and the whole teaching and non-teaching staff of the department for their cooperation.

It is my privilege to thank Dr. Om Prakash Yadav, Director, DMR, Pusa Campus, New Delhi for providing me the research facilities. I would like to acknowledge and thank Dr. R. Sai Kumar, former Director, DMR, for encouraging and helping me pursue my studies. I am deeply indebted to Dr. J.C. Sekhar, Principal Scientist, Winter Nursery Centre, Hyderabad for making available the germplasm as and when required. My heartiest thanks to Mrs. Suby SB, Scientist, DMR, who guided me throughout my research work.

I owe my profound thanks to Dr. Balbir Singh Joia, Retd. Senior Entomologist for his constant encouragement and insightful advice for both my research and career.

The unconditional support and blessings of my parents and in-laws, enabled me to achieve this milestone of my life. I would also like to acknowledge the cooperation and moral support provided by my husband Gurdeep Singh and daughters, Gurnoor Kaur and Kananpreet Kaur. It gives me immense pleasure to mention my friend, Dr. Rajni Mittal for her sincere friendship, affection, care and ever-ready help during the course of my studies.

I am highly obliged to Jasmeet, Charankamal, Simar, Rahul and Shifali for arranging the study material and helping me during seminars. Special thanks are due to Usha mam, Reema, Dr. Sita Ram and Manjari for their pleasant association and inspiration. Help rendered by Anil, Sunil, Dharamveer, Chandan and Meenaji in the laboratory and glass house work is duly acknowledged.

(Jaswinder Kaur)
I dedicate this Thesis to my lovely daughters Gurnoor Kaur and Kananpreet Kaur.
