ACKNOWLEDGEMENTS

"Write a wise saying and your name will live forever".

This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this
journey. This thesis has been kept on track and been seen through to completion with the support and
encouragement of numerous people including my well wishers, my friends, colleagues and various institutions.
At the end of my thesis I would like to thank all those people who made this thesis possible and an
unforgettable experience for me. At the end of my thesis, it is a pleasant task to express my thanks to all those
who contributed in many ways to the success of this study and made it an unforgettable experience for me. My
profound gratitude and foremost thanks, with limitless humility to God, the supreme and the merciful, for
providing me strength and courage to go through the ups and downs of life and enabling me to complete this
endeavor and for bestowing me with such affectionate parents. No emotions can ever be enough to express my
love and regards for my parents and my beloved husband who have held on to my hand and taught me
everything I know today. I am highly beholden for their continuous inspiration, constant encouragement, love
and guidance, their heartfelt blessing and been interest in my work and without whom this treatise would have
remained an ambition.

The dream begins with a "teacher" who believes in you, who tugs and pushes and leads you to the next
plateau, sometimes poking you with a sharp stick called "Knowledge." Indeed the words at my command are not
adequate either in form or in spirit, to convey my depth of feelings of gratefulness to Dr. Satish Paul, Principal
Scientist (Plant breeding), Department of Crop Improvement, the chairman of my advisory committee for his
valuable suggestions, constant encouragement and bringing the manuscript to its original form. To him, I owe a
lot more than I can express.

I greatly acknowledge the technical guidance, encouragement and moral support received from my
advisory committee Dr. R. K. Mittal (Professor, Department of Crop Improvement), Dr. P.N. Sharma
(Professor & Head, Department of plant pathology), Dr. T.R. Sharma (Professor & Head, Department of
Agricultural Biotechnology) for every arena of difficulty.

I express my ecstatic thanks to Dr. H. K. Chaudhary (Professor & Head, Department of Crop
Improvement) for their kind co-operation and impeccable guidance during the course of study. I would also like
to thank Dr. A. S. Gautam, Dr. V.K. Sood, Dr. (Mrs.) Vedna Kumari, Dr. Gopal Khatna, Dr. (Mrs.) Swarn
Lata, Dr. Anuj Pathania, Dr. Pankaj Chopra, and Dr. Rajan Katoch and Dr. Anita for their valuable
suggestions, co-operation and help during the course of study.

My personal regards and obligations are due to Dr. S.R. Thakur (Ex. Professor & Head, Department
of Agricultural Biotechnology), Dr. B.C. Sood (Ex. Professor & Head, Department of Crop Improvement), Dr.
S. Bhateria (Ex. Professor, Department of Crop Improvement), Dr. R.C. Thakur (Ex. Professor & Head,
Department of Agronomy), Dr. S.S. Masand (Ex. Professor, Department of Soil Science), Dr. Rajeev Rathore
(Assistant Professor, Department of Agricultural Biotechnology), Dr. Vikas Sharma and D.S. Kothari (post
graduate fellows, Department of Botony, Punjabi University Patiala) for their timely advice, help and
cooperation as and when required.

I owe my special thanks to Dean, Post Graduate Studies, Dr. S.P. Sharma. Honorable Vice Chancellor
Dr. K.K. Katoch for their kind support and University Librarian for providing me necessary facilities required
during the course of this study.

No emotions can be enough to express my love and regards to my father (Sh. Ranbir Singh Patial),
mother (Smt. Reeta Patial), masi (Smt. Sunita Thakur), masad (Late Sh. Ravel thakur), elder brother (Manbir
Thakur), younger brother (Vikas Patial), Jiju (Mr. Suresh Dhadwal), and sister (Mrs. Sangma Dhadwal) who
have held me on my hand sand taught me everything I know today. The innocent look of ever-loving Misti and
Ishanvi gives me a kind of rejuvenation that I need to keep oving.
I am yet to find suitable words to express my heartfelt thanks to my beloved husband (Dr. Vinay Singh Jamwal) for providing spectrum of help, sharing my responsibilities at the most crucial moments and encouraging me during the period of my study. The benevolence affection and blessings of my father in law (Dr. A.S. Jamwal), bhaiya (Dr. Puneet Jamwal), bhabhi (Dr. Vandana Jamwal) are not to be acknowledged in words but one to be felt in the deeper layers of my heart with great regards.

My heart feels indebted for the unstinted cooperation, guidance and help rendered by seniors Anila mam Chandan Sir and juniors Shalini, Navdeep, Shayla, Nimit, Rajni, Amaninder Sir, Ranjana, Ritika, Naresh, Aditi, vinod, Devender, Shivani and Shilpy for their whole hearted help and support throughout my study period.

Heartfelt thanks are also due to all the members of faculty, laboratory, office and field staff of the Department of Crop Improvement, Palampur for their cordial assistance and timely help extended during the study. I appreciate the whole hearted co-operation extended by Rajkumar G, Waliya G, Ranjeet, Ramlal, Purn G, Arun and Vinod for their timely help during the course of investigation.

Last but not the least, I am thankful to Walia Sir, for bringing this manuscript into present form, with patience and assiduity.

Acknowledgements are inherently endless & incomplete, and I request indulgence from many friendly & helpful people whom I could not name here, due to paucity of space.

Needless to say, all omissions and errors are mine.
