Acknowledgement

I deem it a matter of immense pleasure in expressing my profound and heartfelt gratitude and indebtedness to my esteemed Guide Dr. Surendra K. Rajput for his valuable guidance, unsparing and ever available help throughout the course of his endeavour and thereby making it possible for me to complete the research studies. It is my great privilege to be his first scholar. I shall remain indebted to him throughout my life for his intensive care and affectionate treatment during the period of my research programme.

I express my sincere gratefulness to Principal Dr. B.N. Sharma and Dr. K. N. Bapat, Head, Department of Chemistry and Ex-Head, (Late) Prof. M. L. Shrivastava, Govt. College of Science, Raipur, for providing laboratory facilities and help during my research work.

My deep regards and thanks to Dr. (Mrs.) Rama Pande, Head, SOS in Chemistry, Pt. Ravishankar Shukla University, Raipur who has been always helping and facilitating me during my research work.

I have no words to express my sincere gratitude and regards to Dr. Kallol K. Ghosh, Reader, SOS Chemistry, Pt. Ravishankar Shukla University, Raipur for the constant inspiration and support throughout my research work. He deserves special regards for his guidance and assistance in the kinetic study of synthesized compounds.

I also will not mince words to express my gratitude to Dr. Piyush Kant Pandey, Head, Department of Engineering Chemistry, BIT, Durg and Dr. Madhurima Pandey, Reader, Department of Engineering Chemistry, BIT for their guidance and support in completion of my work i.e. complexation of vanadium and for providing laboratory facilities and required samples.

I extend my earnest regards to Dr. (Mrs.) R. Diwan, Asstt. Professor, Department of Botany, Govt. College of Science, Raipur for her guidance and support to complete Biological Activity of Synthesized Compounds part of my thesis in her research laboratory.

A word of thanks would not suffice for the encouragement and assistance rendered by Dr. K. K. Tiwari, Asstt. Professor, Govt. College of Science, Raipur. I owe my deep regards to him, for paving the path to win the Young Scientist Award at 24th Annual Conference of ICC, held at Ranchi.

This is the proper occasion for conveying my utmost regards to my Teachers Dr. S. K. Chatterjee, Head, Department of Chemistry, Govt. D. B. Girls P.G. College, Raipur, Dr. H.S.Kar, Dr. (Mrs.) S. Nigam, Dr. (Mrs.) S. Verma, Dr. (Mrs.) K. Sharma, Dr. S.K. Patle, Dr. (Mrs.) P. Chandrakar, Dr. P. Sharma and Prof. S. N. Bhoi of Govt. College of Science Raipur for their valuable suggestions, help and encouragement.
during the course of my research work.

I am obliged to Head, SAIF, IIT, Mumbai for giving results of NMR, IR and elemental analysis.

I would also wish to express my thanks to Mrs. Raksha Rajput, whose affectionate behaviour and support enabled me to work hard to achieve this goal.

Words have never been able to express the entire human feeling hence I am unable to express my gratitude to my friends and colleagues who have helped me directly or indirectly to bring this work to a sound end.

I express my deep sentiments to my mother Smt. Sharada Raghavan, who always cared for me and remained very close to me emotionally, despite all the constraints and odds. I am unable to express my heartfelt sentiments to my father (Late) Shri. P. Raghavan, whose blessing & inspirations was extremely instrumental in accomplishing this work. I would fail morally in not showing my gratitude to elder brother Shri. Anil Raghavan and his wife Smt. Nivedita A. Raghavan and their sweet daughters Sakshi and Shreya. I also express my heartfelt gratitude and thanks to my younger sister Smt. Anita Kadam and brother-in-law Shri. Deepak Kadam, who are pillars of strength to me and they always gave me a helping hand in words and deeds.

The person I must specially mention is my husband, Shri. Rajeev Rajappan. I owe a great debt of gratitude for his immense care and unflinching support. Without his co-operation and encouragement the successful beginning and completion of this work would not have been possible.

I, especially pay my indebtedness to my respectable and worthy in-laws for their blessings and moral support during my research work.

My thanks are also to Shri. P. L. Dhruv, Head, Lab. Technician and Shri. J. Baghel, Lab. Technician, Department of Chemistry, Govt. College of Science, Raipur, for their help and support throughout my research work.

My thanks are also due to Shri. Abhay Lanjewar, World Laser Graphics, Raipur for composing and converting the pages in ink to give this shape to my thesis.

Finally, with gratitude, I humbly bow before God, The Almighty and Shri. R.K. Mahobiye for helping in all my endeavours.

Vinita Raghavan
