ACKNOWLEDGEMENTS

The period between Ph. D. registration and the thesis submission was quite eventful and rewarding. Number of things are responsible to make this period memorable for me. This had been possible with sincere guidance, help and wishes from many individuals. Here I wish to offer my sincere thanks to them for their help in one or the other way during my PhD tenure.

I wish to express my deep sense of gratitude and indebtedness to Dr. U.D. Kulkarni, Head, the department of Geology, Nowrosjee Wadia College, Pune, for introducing the present topic and for his inspiring guidance, constructive and valuable suggestion throughout this work. His knowledge and expert supervision with unwavering patience fathered my work at every stage, for without his warm affection and encouragement, the fulfilment of the task would have been very difficult. His positive and generous nature helped me learn towards correct ways of doing things. I wish to mention deep sense of gratitude towards my Co-guide Prof. N. J. Pawar, Vice Chancellor, Shivaji University Kolhapur. I wish to offer my sincere thanks to Dr. M.M. Andar, Secretary, Modern Education Society and Principal, Ness Wadia College of Commerce, Pune.

I would like to thank Dr. Bhagwan Thakur, Principal, Nowrosjee Wadia College, Pune, for his encouragement and continuous support throughout the PhD work. I gratefully acknowledge the constant encouragement and help received from Dr. V.T. Dangat, Head the department of Chemistry, Nowrosjee Wadia College, Pune. It is my pleasure to express sincere thanks to Dr. Nilima Rajurkar, Head, the Environmental Sciences, University of Pune, for providing me all the necessary departmental facilities. I would like to thank Dr. Rajendra Sakhare for his suggestions and comments that helped improve the English and clarify some parts of the work.

I wish to thank Prof. Pravin Saptarshi and Prof. V.S. Ghole former Head, the Department of Environmental Sciences, University of Pune, for providing me all necessary facilities to complete this work. I would like to thank Dr. Nitin Karmalkar, Head, the Department of Geology, University of Pune, for providing AAS and XRF for analyses of trace elements and silt samples. I am also grateful to Dr. Sayyed M.R.G and Dr. Chikate for their helpful comments and discussions regarding my work.
Co-operation and help received from the staff of National Water Academy, Central Water and Power Research Station (CWPRS), Irrigation Department India Meteorological Department (IMD) and Groundwater Surveys and Development Agency (GSDA) are thankfully acknowledged for providing data required for present study. I am always obliged to them. My thanks are due to the staff of the Jaykar Library of University of Pune, who made the library services available to me.

I would like to thank Mr. Dabhade, Executive Engineer, of Ujjani dam, Bhimanagar for giving necessary permission for sample collection and also providing required data for present study.

I would like to thank Mr. Supekar, staff of Ujjani dam, Bhimanagar their help regarding water and silt sample collection. I take this opportunity to express thanks to my colleagues especially Dr. Vasant Chabukswar from department of Chemistry, Nowrosjee Wadia College, Pune for rendering valuable help and support during this Ph.D. work. Special thanks are bestowed upon the villagers in Bhigwan, Daund and Bhimanagar area for their kind cooperation during my field visits. My heartfelt thanks are due to Mr. Sanjay Kale and Mr. Ajay Kadam for the preparation of necessary maps and computer work and support in completion of the thesis. I also thank Dr. Khan I.A. and Dr. Sham Vadetwar, for encouragement and help over the years.

I am deeply indebted to my wife Pratibha, sons Saurabh and Sameer who helped me in checking the manuscript of the thesis and also gave me moral support and encouragement consistently in completing this research work.

I want to thank my parents, brother and sister for their moral support during the study. They have contributed greatly to the achievement of the thesis indirectly. I could not imagine completing it without their patience and love. I dedicate the thesis to them.

I am thankful to all those who I might have inadvertently failed to mention here, but have made positive contributions in the successful completion of this work.

Mr. Ravaheb R. Sangpal
