ACKNOWLEDGEMENT

I express my sincere and profound gratitude to Dr. U. SANKAR, Director, Madras School of Economics and Supervisor for his continuous encouragement, learned guidance and co-operation throughout the period of my research work. Without his genuine interest, unstinting support and reassuring words when I needed them, this thesis would never have been completed. I will forever cherish his in-depth knowledge and kindness.

I would like to thank Dr. E. MAX, Professor and Head, Department of Econometrics, University of Madras for his silent and constant encouragement. My sincere appreciations are due to faculty members of Department of Econometrics for their invaluable moral support in completing this study.

I am indebted to Dr. E. BALAGURUSAMY, Director, P.S.G. Institute of Management, Coimbatore and the other faculty members of the same institute for their co-operation and support.

I acknowledge with a deep sense of gratitude to Dr. G. MYTHILI and Dr. K.R. SHANMUGAM, Madras School of Economics for their suggestions and help whenever sought.

I would be failing in my duty, if I do not thank the higher authorities who are working in Economic Research Unit, Department of Telecommunications, New Delhi and the concerned persons in Haddows Road II E10B Exchange at Madras who provided me the required data for the present study.
I owe my thanks to fellow scholars and friends for their timely help and encouragement.

I would like to express my deepest gratitude to my parents, brothers and sister for their blessings, encouragement, sacrifice, tolerant and moral support rendered me all along with my studies. I am, in a deep sense, what they have made me in the years of education. A special note of appreciation goes to my wife Mrs.P.SHANTHI for her patience and encouragement.

(M.MURALIKANNAN)
