ACKNOWLEDGEMENTS

“Gurur Brahmaa Gurur Vishnu Gururdev Maheshwara
Guru Saakshaat Parambramha Tasmai Sri Gurave Namah”

With a deep sense of gratitude, I express my sincerest thanks to my mentor, my guide and my Guru Prof. Azad Singh Chhiller for his immense help in planning and executing the present research work in time. The confidence and dynamism with which he guided me and my work needs no elaboration. His overly enthusiastic and integral view on research and his mission for providing ‘high quality research work’ has made a deep impression on me and my vision. I owe him a lot of gratitude for having shown me the right way of pursuing research. His company and assurance during the time of crisis would be remembered lifelong.

My special gratitude is due to Dr. Gulshan Taneja, Associate Professor, Department of Mathematics, Maharshi Dayanand University, Rohtak, for his valuable suggestions and discussion which I had with him from time to time. Without his help, the thesis work in general and the statistical analysis, is particular, could not be done in present form.

My sincere thanks is due to Prof. Narender Kumar, Head, Department of Commerce, Maharshi Dayanand University, Rohtak for his co-operation, worthy suggestions and providing me with the institutional facilities to do the necessary research work.

I specially thank Prof. Ravinder Vinayek, Dean Academic Affairs, Maharshi Dayanand University, Rohtak and Prof. M.S. Malik, Dean, Faculty of Commerce, Maharshi Dayanand University, Rohtak who took keen interest in the progress of my work and was always available when I needed their advice.

I feel highly indebted to Prof. S.S. Chahal, Prof. S.D. Vashishtha, Prof. Geeta Manmohan Dr. Raj Pal, Dr. R.R Saini, Dr. Vazir singh Nehra, Dr. Sanjeev Chachra, Mr. Tilak Raj and other faculty members of the department for extending their help whenever I approached them.

Thanks are also due to Dr. Raj Kumar, Associate Professor, IMSAR, Maharshi Dayanand University, Rohtak, Principal, staff and management committee of my school, for their constant encouragement.

I will be failing in my duty if I do not thank Mr. R.D. Sharma, Mr. Parmod, Mr. Jaipal and other administrative staff of the department for their timely help.

I am also very grateful to many other people who have helped me in not getting lost during this research work by taking out valuable time from their extremely busy schedules to read, comment, clarify and argue a lost of issues included in the present thesis. But, I particularly, appreciate the assistance of Mr. S.K. Jindal, Assistant Librarian, MDU Rohtak and Ms. Palka
Chhillar, Research Fellow, IIM Indore, I have also benefited from individuals I can not name, including the anonymous referees of my research work, who in some instances have been very helpful, and the participants at various seminars and conferences at which I have made the presentations.

No words can adequately express my gratitude to my family. I feel deep sense of gratitude for my parents who formed part of my vision and taught me the good things that really matter in life. I dedicated this work to my courageous and adorable Father, Sh. Lal Chand, who taught me about the difference between right and wrong, and to the memory of my mother, Smt. Asha Rani whose light and love continue to shine through my life. I am indebted to my parents for always being there for me and for always believing in me. They rendered to me an enormous support during the whole tenure of my research. I owe to my brother-in-law Mr. Inderjeet, Mr. Naresh and my sisters Mrs. Sunita, Mrs. Veena; Mr. Manoj Kumar, my brother, Ms. Samiksha, my sister-in-law for the silent prayers for my success.

I feel deep sense of gratitude for the better-half of my life, my wife Mrs. Himani Soni, for always being there to encourage, motivate and believe in me. I am also very thankful to my daughter Hunar and son Gunat for their naughty and supportive activities to unwind me mentally during the course of my work. As the brunt of my occasional outburst of bad temper was borne by my family, without the constant and cheerful support of my wife, daughter and son, the task would have been impossible. Their tremendous co-operation, patience, support, encouragement, understanding and love helped me to bring this effort to fruition.

My heartiest thanks and appreciation also extend to all my friends and well wishers who helped me in any way during this work.

Last of all, I express my indebtedness to all those who have not been explicitly mentioned but made substantial contributions to the study. The chain of my gratitude would be definitely incomplete if I would forget to thank the Almighty, whose divine light provide me the perseverance, guidance, inspiration, faith and strength to carry out this work
