LIST OF TABLES

Table 4.1. Device utilization of FPGA-based and FPGA accelerated system for linear heating ........................................ 81

Table 4.2. Statistical report for FPGA accelerated and Microcontroller-based monitoring system .................................. 94

Table 4.3. Device utilization of FPGA-based and FPGA accelerated system for infant incubator ................................ 96

Table 4.4. Device utilization of FPGA-based and FPGA accelerated system for clustering ........................................ 104

Table 4.5. Device utilization of FPGA-based and FPGA accelerated system for text pattern searching ....................... 112

Table 4.6. Device utilization of FPGA-based and FPGA accelerated system for cloud service ................................... 123

Table 4.7. Number of operations in different stages for five applications ......................................................... 124
