ACKNOWLEDGEMENT

It is my great pleasure to thank all those who have inspired me to take up this research work and also helped and supported me to complete this thesis. At this point of time I wish to express my gratitude to number of individuals, instiutition and authorities.

I am deeply indebted to my guide Dr. G. Chandrakantha, who has been patiently listening to my doubts and giving valuable suggestions at every stage of this research. It has been a great learning experience for me to be involved in this scientific venture along with such a dedicated and eminent scholar like Dr. Chandrakantha. Words are scanty to express my deep sense of gratitude to him.

I am thankful to my co-guide Dr. Narayana Shenoy, for all his help and guidance in this research especially, in collecting water and soil sample from the study area.

My thanks to Prof. K. S. Anantha Murthy, Prof. Syed Ashfaq Ahamed, Dr. K. N. Chandrashekarappa, Dr. Govindaraju and Dr. Arun Kumar S L faculty members of Kuvempu University for sharing their valuable expertise in using GIS apart from their care and support throughout the process of this research.

I extend my sincere thanks to the Authorities of Kuvempu University, Shivamogga for providing me an opportunity to carryout out this research work successfully.

I am extremely grateful to Prof. G. Ranganna, Professor of Emeritus, UGC-DAC Center, UVCE, Bangalore who has not only inspired me to pursue this research but also constantly guided and supported throughout the process of this research.

My hearty thanks to SBM Jain College of Engineering, Bangalore Rural and Environmental Research Lab under CMRTU, R. V College of Engineering (RVCE), Bangalore, for providing technical support and allowing me to carry out water quality tests. My special
thanks to Sri. A.Ve.Sowrirajan, Assistant Professor, SBM Jain College of Engineering and Shri. Tippa Reddy, Lab assistant at CMRTU for their technical assistance in water quality assessment.

I thank the Authorities of Dept. of Agriculture, Govt. of Karnataka for extending their technical support in soil quality testing. I also thank authorities of RV-ISRO Space Application Centre, and Dept. of Civil Engineering, RVCE, Bangalore.

I also thank NIIT-GIS, Bangalore and Mr. Kartik Ramachandran, ERDAS, India Ltd. for their technical support in using the software’s.

I sincerely thank all the authorities, who have catered the data required for this research particularly - Department of Economics and Statistics, GoK for furnishing the daily rainfall data, Department of Mines and Geology, GoK for providing observation wells water level data, Karnataka State Remote Sensing Application Center (KSRSAC) for providing Soil maps of the study area and providing technical support in analyzing the data, Dy. Director, Survey of India, GoI for allowing me to access Topographic maps.

My special thanks are to Dr. Mohandas Chadaga, Associate professor, dept of Civil Engg, MIT Manipal. for his valuable input and to Dr. Triveni S. Assistant professor, Dept of PG Studies in Psychology, Karanatak University Dharwad, for helping me in statistical analysis using SPSS.

My sincere thanks to Dr. M. Lingadevaru and Sri. Jayakumar, Dept. of Applied Geology, Kuvempu University for their help.

I thank the Librarians of Kuvempu University, Shivamogga and Karnataka University, Dharwad for extending library facilities to carry out this research.

I am grateful to all my college officials, without their encouragement, support and cooperation; this research would not be
possible. My sincere thanks to Dr. S C. Sharma, former principal RVCE, Dr B. S. Satyanarayana, Principal, RVCE, Prof. Raja Rao, adviser, RVCE, Dr. B. C. Udayashankar, Prof & Head, Dept of Civil Engineering, Prof. B. L. Shivakumar, former head of the Dept. Dept of Civil Engineering, Dr. Jaipal R. Prof and Head, Dept of EEE, RVCE, and Dr. M. Krishna, Dean, Research, RVCE, for their support.

I am thankful to Dr. H. Gangadhara Bhat, Mangalore University for his valuable suggestions and guidance and to Dr. Prakash Parashivamurty, Prof. and head, Dept of Construction Technology and Management for his friendly support and constant motivation.

I must acknowledge the support of all my colleagues and friends in the department of Civil Engineering, RVCE. Without their support and encouragement it may not be a reality to complete my research work.

I thank all office and non teaching staff and research scholars of department of Applied Geology, Kuvempu University.

No amount of thanks would be enough, but still I take this opportunity to thank my father and mother for bringing me to this height by sacrificing their needs in my entire career. It is my great pleasure to thank my wife and children are the constant source of inspiration and made me comfortable, being patient with me during this research work. I also wish to extend my gratitude to my sister and all my elder and younger family members who supported.

Finally, I would like to thank my teachers, friends and well wishers who have contributed directly or indirectly to the successful completion of this research work.

Above all, I thank the Almighty for giving me good health, spirit and everything to make this enormous task possible.

Anantha Rama V.
