ACKNOWLEDGEMENT

Ultimately my soulful thanks are to the Almighty who has given me an opportunity to live on this earth with His everlasting care, blessings and strength for me to strive through the difficulties of life and who I will rely upon for the rest of my life forever.

It is my pride privilege to express my sincere thanks and deep sense of gratitude to my mentor Dr. G. Rajarajan, Assistant Professor, Department of Chemistry, Annamalai University for his valuable suggestions, splendid supervision, constructive criticism and constant patience, through which this work was able to take the shape in which it has been presented. His mentorship was paramount in providing me a well rounded experience consistent my long term carrier goals.

I owe my most sincere gratitude to Dr. SP. MeenakshiSundaram, Professor and Head, Department of Chemistry, Annamalai University, for his constant support and providing necessary facilities that helped me to balance the competing demands of my research work in a successful manner.

I am highly thankful to Dr. C. Karunakaran Professor and Former Head and Dr. A. Manimekalai, Professor and Former Head and Dean, Department of Chemistry for their timely help and constant encouragement.

I am indebted to express my gratitude to Dr. N. Jayachandramani, Professor and Former Head, Department of Chemistry, Pachaiyapa's, Chennai-30, for his constant encouragement in all possible ways and his whole hearted help would be remembered lifelong.

I extent my thanks to Dr. V. Thanikachalam, Professor, Chemistry Wing (DDE), Annamalai University, for inspiring and encouraging me to pursue this study. His confidence imbibing attitude has always been a moral support for me.
Grateful thanks to Dr. S. THIRUMARAN, Associate Professor, Dr. C. ANBUSELVAM and Dr. H. MANIKANDAN Assistant Professors, Department of Chemistry, for their help rendered by them throughout my work.

I express heartfelt thanks to Dr. P. AMUTHA, Assistant Professor, Department of Chemistry, PSG engineering college, Coimbatore, who helped me in all possible ways during the course of my study.

My deepest sense of gratitude goes to my junior Mr. M. AROCKIA DOSS for their immense help and encouragement throughout my study.

I avail this opportunity to extend my deep sense of gratitude to my friends A. KAMARAJ, M. MURUGAVELU, R. RAJKUMAR, S. BALACHANDRAN, D. CHINNARAJA, G. GOMATHI, A.R. PARVEEN, N. FATHIMUNNISA and other friends who have always been a source of inspiration for me and stood by my side at the toughest times.

I would like to thank the UGC-SAP, New Delhi and Annamalai University, for providing me financial support in the form of BSR Fellowship.

I am thankful to Annamalai University and for recording all the NMR SPECTRA. I also thank BIOLOGICAL SCIENCE, Pondicherry, for Providing Microbial Activity.

I would like to thank all the Research Scholars, Teaching and Non-Teaching Staff, Department of Chemistry, Annamalai University, for their co-operation and support.

Words stand no limits to thank my lovely parents Mr. R. SAMBANDAM and Mrs. S. PAPPA, who gave me this wonderful life, taught and guided me with their invaluable love and care all through my life and studies. My deepest gratitude and love are to my Sisters Mrs. S. MANJULA, Ms. M. INDHIRA and Brothers
Mr. S. UDHYAKUMAR, RAMKUMAR, ARUNKUMAR and S. PRAVEENKUMAR and their FAMILY for their love, care, encouragement and emotional support during my happy and tough times.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

I wish to express my warm and sincere thanks to Ajai Computers, Annamalai Nagar for the neat execution of the thesis.

Place : Annamalainagar
