ACKNOWLEDGEMENT

Time marches on, the season's changes and it is time to relish what has been accomplished. This work has behind in the encouragement, sustained interest and help of many, and so the time has come to look on the path transgressed during this endeavor.

Hard indeed it is, to reasonable evaluate the help. Assistance on and guidance rendered by a cluster of personalities, but academic decency demands that I mentioned at least a few names, which stand out as near and dear.

I am highly indebted to my thesis supervisor Dr. Syed Ashfaq Ahmed, Reader, Department of Applied Geology, Kuvempu University, Shnakaraghatta under whose supervision and guidance this work was carried out. I am immensely benefited by their valuable guidance, suggestions, inspiration and encouragement throughout this work.

I am grateful to Prof. K.S. Anantha Murthy, Professor, Department of applied Geology, Kuvempu University for providing me the facilites available in the department during completion of my dissertation work.

I am ever grateful to Dr. G Chandrakantha, Reader and Chairman for his constant encouragement and moral support during my course of this work.

I am extremely thankful to Dr. K.N. Chandrashekarappa, Reader, department of applied Geology for his friendly suggestions and moral support during the course of my work.

My sincere thanks to Dr. Govinda Raju, Lecturer, Department of Applied Geology, Kuvempu University for his valuable suggestions and moral support during my stay in the department.

I express my sincere thanks to Sri. S.L. Arun Kumar, Lecturer, Department of Applied Geology, for their valuable suggestions and advice in carrying out the project work.

I wish to thanks Dr. M. Lingadevaru, Dr. K. Lokesh, for their valuable advice in several aspects.

I would like to extend thanks to my M.Phil batch mate Sri. Sanjeev Murthy for his help in preparation of my report and also I am thankfull to my other M.phil batch mates.
I wish to thank our non-teaching staff of Department of Applied Geology, for their whole hearted co-operation and encouragements at various stages of his work.

I owe a word of acknowledgement with love and affection to my parents Sri N.S. Muralidhra Krishna and Smt. Kamala M. Krishna; my beloved elder sisters Smt. Vani B. Sharma and Smt. Veena P. Bhat and my brother-in-laws Sri K. M. Balakrishna Sharma and Sri. G. Prasanna Bhat who encouraged with patience and their inspiration all through the period of my life. Infact, I owe this entire dissertation to them.
