ACKNOWLEDGEMENTS

It is not easy to formulate in words the feeling of gratitude which I have for many individuals, who have made invaluable contributions in enabling me to bring this work to completion.

I owe my sincere gratitude to Prof. (Dr.) K.G. Gupta, Microbiology Department, Panjab University, Chandigarh not only for his par excellence guidance, thoughtful suggestions and meticulous efforts during the course of this investigation but also for his co-operation, timely criticisms and bearing with me patiently at all levels.

I am grateful to Dr. (Mrs.) Vijay Prabha Lecturer, Microbiology Department, Panjab University, Chandigarh for her guidance, invaluable help and suggestions in the execution of this work.

I also owe my sincere gratitude to Dr. Sarla Malhotra, Additional Professor, Department of Obstetrics and Gynecology, Post Graduate Institute of Medical Education and Research, Chandigarh for her guidance and invaluable suggestions. I shall be failing in my duty if I do not pay special thanks to her for helping me select the cases for this study and providing me with the adequate samples required from her department from time to time.

Thanks are also due to University Grants Commission, Govt. of India for financial assistance.

I am pleased to acknowledge the co-operation and help of all my friends and colleagues.

I sincerely thank my dear uncle Justice S.S. Sodhi and Bonny aunty for their persistent encouragement, love and affection.

Above all, I thank my parents for their blessings, constant encouragement and moral support throughout the years of my education. I most humbly dedicate my thesis to them.

Rashbinder Kaur Grewal
