Acknowledgements

A journey is easier when you travel together. Interdependence is certainly more valuable than independence.

I feel immense pleasure to express my deep sense of respect and gratitude to my worthy supervisor Dr. (Mrs.) V.L. Sharma, Professor, Department of Zoology, Panjab University, Chandigarh, for her able supervision, skilful guidance and constant encouragement throughout the course of the study. I wish to convey my sincere thanks to her for the constructive criticism and painstaking efforts without which this work could not have reached its present stage of presentation.

I am highly grateful to my esteemed supervisor Prof. R.C. Sobti, Department of Biotechnology, present Vice-Chancellor of Panjab University, Chandigarh, who patiently supervised my work. Under his dextrous guidance, things always seemed within the reach. He has taken great pains and spent his valuable time in bringing up of this work. His affectionate nature, constant encouragement and critical approach have helped me to complete my research work successfully. He made available all laboratory facilities and equipments in his department.

I am equally grateful to my supervisor Dr. Y.S. Shouche, National Centre for Cell Science, Pune for his enlightened guidance and valuable suggestions.

I also extend my grateful thanks to Dr. (Mrs.) T.K. Gill, Chairperson and Prof. S. Chaudhry, Ex-chairman, Department of Zoology, Panjab University, Chandigarh for providing the requisite research facilities and timely help.

I wish to acknowledge Isoptera Section of Zoological Survey of India, Kolkata for the identification of termite samples collected during the present research.

I am indebted to Dr. Manishi Mukesh, Senior scientist and Mrs. Monika Sodhi, Scientist, National Bureau of Animal Genomic Resources, Karnal, Haryana and Dr. Bachawat, Scientist, Institute of Microbial Technology (IMTECH) for their wholehearted cooperation in providing laboratory facilities for carrying out some part of my project.

I owe a special thanks to Dr. Jagmohan Singh, the then research scholar in Department of Biotechnology, P.U. Chandigarh for his selfless help and cooperation.

My sincere thanks are also due to all my friends specially Reshu Mandal, Sarabjit Kaur, Pushpinder Kaur, Meena Bharti, Nishi Sharma, Monika Sharma, Mani Chopra and all other labmates both from Department of Biotechnology and Department of Zoology for their moral support, cooperation and help whenever it was needed.

I am grateful to Mr. Shashi Kant Gupta (Guru Graphics) for taking painstaking efforts for efficiently typesetting my thesis to my entire satisfaction.

The Council of Scientific and Industrial Research is acknowledged for providing financial grants to support the present project.

I express my deepest regards and gratitude to my parents whose love and blessings proved an inexhaustible source of strength to me. I am grateful to them for their moral support and sincere cooperation.

A special note of thanks is due to my younger sister Pushpa and brother Manish (Monu) who stood by me with their whole-hearted cooperation and moral support during my research work.

Last but not the least, I bow to the Almighty whose kind blessings and teachings buoyed me up with confidence and guided me to the right path of life.

Date: 28/3/2007
