ACKNOWLEDGEMENT

There are a number of people without whom this thesis might not have been written, and to whom I am greatly indebted.

To Dr. V. L. Patil, my research guide, this thesis would not exist without his strong backing. He patiently guided me towards an interesting and workable project. His experience, his insight, and his openness to my ideas made the pages that follow possible.

To Prof. (Dr.) K. M. Jadhav, Head Department of Physics, Dr. Babasaheb Ambedkar Marathwada University, his critical review of the entire text helped me to clarify my message and to streamline the content. As a result of his effort, this is a much more organized, lucid and readable thesis.
