ACKNOWLEDGMENT

I shall be failing in my duty if I do not mention the generous help and guidance I received from various peoples and sources. But without their help it would not have been possible to arrive at any conclusive evidences as regards this piece of research.

I wish to express my deep sense of gratitude to my research guide Dr. C. B. Dummalod, Reader, Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, for his guidance and encouragement, timely instructions, invaluable help and the erudite way of suggesting stylistic alteration through out the course of this work.

I am much obliged to Prof. Dr. Meena Patil, Head, Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for providing me all the facilities to work in the department.

My heartfelt thanks are due to the honorable Director, Higher Education, Maharashtra State, Pune and the honorable
Principal, Govt. College of Arts and Science Aurangabad for granting me permission to pursue my research work.

I take this opportunity to render my thanks to research colleague Mr. Nanasaheb Kamble, Dr. Rahul Kale, Deepak Gaikwad and Nitin Shinde, who extended their help during the course of the present study.

At this juncture, I am thankful to my well-wisher and friends Dr. Bandela, Vilas Padhey, Dr. Shrinivas Satbhai, Vikas Gambhire, Babasheb Munde, Prasad Purekar, Narendra patil, and Jaywant Deshmukh, their persistent encouragement and inspiration is helpful to complete this task.

I fall short of words to express my feelings towards my wife Mrs. Seema Deshmukh, daughter Shivani and son Atharv for their support, and understanding during the period of this investigation.

It is not without some technical expertise and support that this thesis has been completed. Taking time out of her family and household responsibilities, my wife Mrs. Seema handled all the data typing and processing (DTP) work with perseverance. It is
