ACKNOWLEDGEMENT

It gives me great pleasure to express my sincere thanks to my Guide, Dr. Amarjit Singh, Associate Director, HEMRL for his constant support, excellent guidance and encouragement throughout my research work. I have been immensely benefited with the enriched knowledge and experience of my Guide in the area of gun propellant and high energy materials.

My gratitude and sincere thanks to Dr. R. K. Pandey, Associate Director, HEMRL, an exemplary Co-Guide who profoundly enriched my knowledge and constantly inspired me and who in my pursuit of this thesis had to sacrifice many of his precious hours. He has rendered his able guidance towards my research work inspite of his numerous commitments. I have been extremely fortunate to be blessed with a proficient and competent Guide like him. I take this opportunity to convey my heartfelt gratitude to him and his family for their unstinting support and help.

I am greatly indebted to Dr. A. Subhananda Rao, CCR&D(Aero), Distinguished Scientist and Shri B. Bhattacharya, Outstanding Scientist, Director HEMRL for his encouragement and for giving permission to carry out this work and publish the same in the form of thesis.

I express my sincere gratitude to Dr. S. N. Asthana, Director of Armaments for his valuable suggestions and support extended at every step of my research work inspite of his busy schedule.

I owe a deep sense of gratitude to Shri G. M. Gore, Dr. R. R. Sanghavi, and Dr. Mehilal for exhaustive review of the thesis and offering valuable suggestions and guidance.

I owe special thanks to Dr. T. K. Chakraborty, Shri M. J. Kohadkar, Dr. D. B. Sarwade, Dr. R. S. Damse, Dr. H. Shekhar, Shri M. M. Joshi, Shri R. Rai, Dr. C. N. Divekar, Shri B. Omprakash, and all my colleagues of GP Division who have spared their valuable time for deliberations on the experimental work, compilation of data and finally arriving at a conclusion.
I would like to acknowledge the support given by Dr. A. K. Mandal, Ms. Hima Prasanth, Shri P. M. Jadhav, Dr. (Ms) Arti Pant, Shri M. H. Gijare and Shri R.S. Khopade and all officers and staff of CEPP Division during the compilation of thesis. I wish to place on record the outstanding contribution made by Shri U. T. Velan and Ms E. S. Abraham in typing work and compilation of the thesis.

I owe my thanks to Shri D. K. Kankane, Dr. (Mrs) U. R. Nair, Shri M. B. Shah, Shri A. M. Devale, Shri G. R. Kurulkar, Shri P. B. Kulkarni, Shri G. U. Raikar, Shri V. V. Kate and officers & staff of TS Division for extending incredible help and support.

My special thanks and appreciation are to Ms. S. S. Bhate, Ms V. M. Darshane, Ms. M. D. Patil, Ms. S.A. Mandhre and Ms A. S. Kalbhor and all officers of TIRC Division for their outstanding contribution in preparing the manuscript and scanning relevant literature. I sincerely acknowledge the help and moral support rendered by Dr (Ms) R. M. Roy, right from the initial stage of my research studies including the formulation of experimental work. I also thank my dear friends Ms. G. U. Singh, Ms. S. A. Shaikh & Dr.(Ms.) Ila Tiwari for their motivation and assistance. I extend my special thanks to Shri P.D. Shinde, Ms. S. J. Pawar, Ms. C. P. Shetty and Shri D.P. Patil for analysis and compiling of data.

I greatly acknowledge the help rendered by officers and staff of GP, CEPP, EMR, QARD, Pyro, Inst and NDT-MPT Divisions of HEMRL in carrying out the work presented in this thesis.

Last but not the least, I would like to express my deep sense of gratitude to my family members especially my elder sister Mrs. Aruna R. Kshetre, brother-in-law, Shri R. D. Kshetre, nephew Atul and my son Tejas for their moral support, encouragement and patience throughout my research work.

I thank THE ALMIGHTY GOD for showering blessings and grace upon me throughout the entire period of work.
