CONTENTS

Chapter 1
Introduction 1-22

Chapter 2
Simultaneous estimation of ordered scale parameters of two exponential populations with known location parameters 23-49
2.1 Introduction 24
2.2 Comparisons with respect to mean square error criterion 26
2.3 Comparisons with respect to generalized Pitman Nearness criterion 42

Chapter 3
Componentwise estimation of ordered scale parameters of two exponential populations with known location parameters 50-89
3.1 Introduction 51
3.2 Comparisons with respect to mean square error criterion 52
3.3 Comparisons with respect to generalized Pitman Nearness criterion 75

Chapter 4
Estimation of Location and ordered scale parameters of two exponential populations 90-137
4.1 Introduction 91
4.2 Simultaneous estimation of ordered scale parameters with unknown location parameters 92
4.2.1 Comparisons with respect to mean square error criterion 93
4.2.2 Comparisons with respect to generalized Pitman Nearness criterion 100
4.3 Componentwise estimation of ordered scale parameters with unknown location parameters 103
4.3.1 Comparisons with respect to mean square error criterion 103
4.3.2 Comparisons with respect to generalized Pitman Nearness criterion 118
4.4 Componentwise estimation of location parameters with ordered scale parameters:- Comparisons with respect to mean square error criterion 123
Chapter 5
Componentwise estimation of ordered parameters of \( k(\geq 2) \) exponential populations
